<b>Silicone Clearance Wedge</b>  SC0301 3 pcs	<b>Clamping Ring</b>  Select one: SC0204/SC0205/SC0206		

• Item **SC0201 / SC0202 / SC0203**  
 • Packing **6 pcs/box, 10 boxes/bag, 24 bags/ctn**  
 • Carton size **360×360×280mm**  
 • Weight **9 kgs**

► **Clamping Ring**

> The concave type design of the silicone pads conforms with the anatomy of the tooth adjacent surface, closely fixed on the matrix bands on it, make the adjacency relations back to normal. The silicone pads circle, vertical circle and triangle all of them can be used to fix the bands.

• Item **SC0204 / SC0205 / SC0206**  
 • Specification **25.5×22mm**  
 • Packing **1 pc/box, 30 boxes/ctn**  
 • Carton size **210×150×140mm**  
 • Weight **2.5 kgs**

► **Clamping Ring**

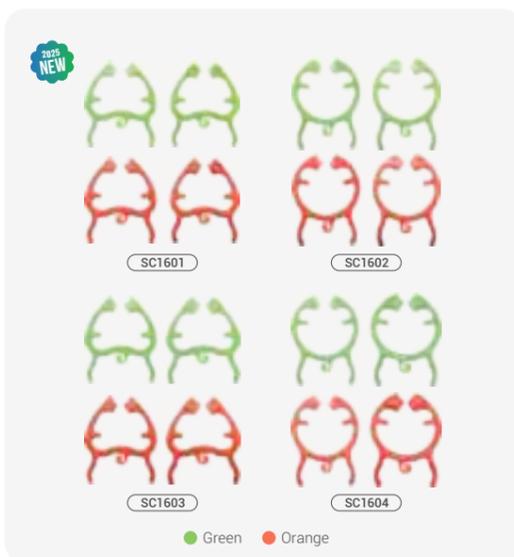

> It consists of U-shaped alloy spring clips and plastic chucks. The materials used are titanium-nickel memory alloy and PC plastic, which are super-elastic, memory, corrosion-resistant and biocompatible. The clamping force is weak, medium and strong respectively.

### ▶ Clamping Ring

> produced by High elastic titanium-nickel alloy round wire, which are memory, super-elastic, biocompatible, corrosion-resistant and fatigue resistance, soft clamping force, stable performance, not easy to break.

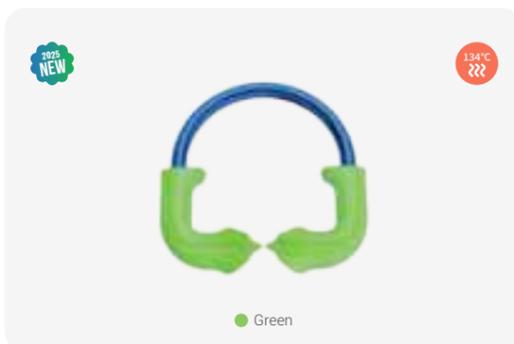

• Item	SC0207L	SC0207M	SC0207S
• Specification	24.4×23.3mm	22.4×20.7mm	20.2×19.3mm
• Packing	1 pc/box, 160 boxes/ctn		
• Carton size	310×310×230mm		
• Weight	10.6 kgs		

### ▶ Clamping Ring

> The chuck is made of soft and hard plastic, which is stable and non-slip.  
> The spiral hook design in the middle of the clamping ring is convenient for fixing the dental floss during treatment.  
> It can be held by hand or opened with a forceps.

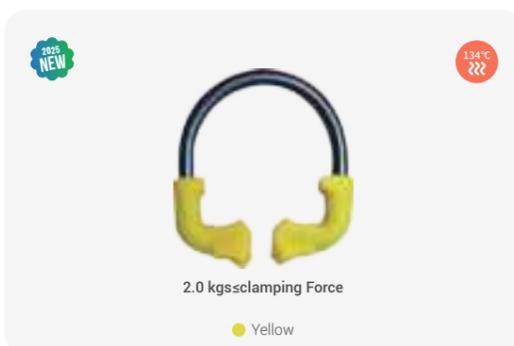

• Item	SC1601 / SC1602 / SC1603 / SC1604
• Packing	20 pcs/box, 100 boxes/ctn
• Remarks	Front + Back

### ▶ Clamping Ring

> The clamp head is more lower, suitable for children's teeth with low crowns and narrow teeth neck structure, and more stable clamping.  
> Handheld design, more convenient operation.

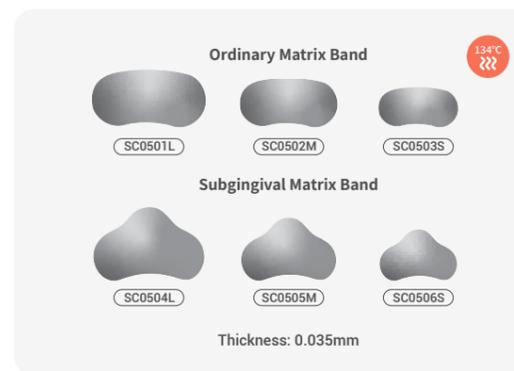

• Item	SC1605
• Packing	1 pc/box, 30 boxes/ctn

### ▶ Clamping Ring

> The chuck design holds the teeth by position point, featuring strong compatibility and being applicable to various tooth shapes.  
> The nickel-titanium material is resistant to corrosion and has good elasticity.

• Item	SC1606
• Specification	20.6×11.3×6.2mm
• Packing	1 pc/box, 10 boxes/bag, 24 bags/ctn

### ▶ Matrix Bands

> Halves bean appearance, smooth surface, convenient operation. Concave type design ordinary matrix bands and subgingival matrix bands make it easy to recover to the normal adjacency relations.

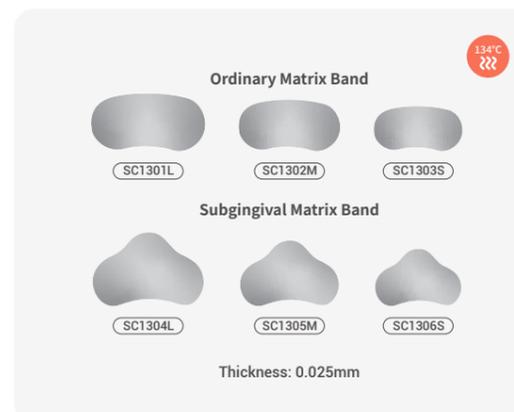

• Item	SC0501L / 02M / 03S / 04L / 05M / 06S
• Packing	50 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	360×360×280mm
• Weight	7.5 kgs

### ▶ Matrix Bands

> It's coated with Teflon non-stick material, which can prevent the matrix bands from sticking to resin material during dental restoration, and make the filling resin surface smoother and reduce the adhesion of plaque.

• Item	SC1201L / 02M / 03S / 04L / 05M / 06S
• Packing	50 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	280×280×220mm
• Weight	9.5 kgs

### ▶ Matrix Bands

> Halves bean appearance, smooth surface, convenient operation. Concave type design ordinary matrix bands and subgingival matrix bands make it easy to recover to the normal adjacency relations.

• Item	SC1301L / 02M / 03S / 04L / 05M / 06S
• Packing	50 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	280×280×220mm
• Weight	9.5 kgs

### ▶ Matrix Bands

> Compared with ordinary matrix bands, new gingival matrix bands reduces the formation of overhang at the gingival margin during dental restoration.

> Compared with subgingival matrix bands, it protects gingival from over damage when put into any diastema.

• Item	SC14L / SC14M / SC14S
• Packing	50 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	280×280×220mm
• Weight	11.2 kgs

### ► Silicone Clearance Wedge

> "8" appearance, hollow design, Super elasticity, can be easily put into any diastema. It is used to fix the resin matrix bands, suitable for repairing the smaller cavity of anterior teeth.

• Item	SC0301
• Hardness	30HA
• Packing	20 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	360×360×280mm
• Weight	7.5 kgs

● Orange ● Green ● Purple

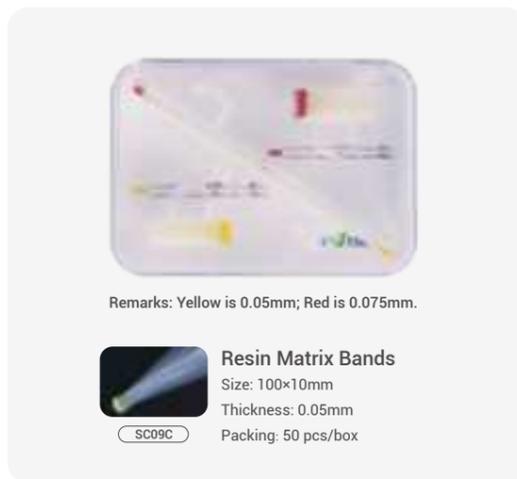

### ► Resin Matrix Bands

> Made of transparent material, without affecting of the resin curing, easily of operation.

• Item	SC0601L / SC0602S
• Packing	50 pcs/box, 10 boxes/bag, 24 bags/ctn
• Carton size	360×360×280mm
• Weight	7 kgs

● Blue ● Green

Remarks: Yellow is 0.05mm; Red is 0.075mm.

**Resin Matrix Bands**  
Size: 100×10mm  
Thickness: 0.05mm  
Packing: 50 pcs/box

### ► Resin Matrix Bands

> The product is made of polyester film, which can restore the defect tooth shape well. Secured with poly wedge, the matrix bands can fix tooth cervical firmly, reduce overhang to gum, and restore proximal contact point.

• Item	SC09
• Specification	100×10×0.075mm (20pcs) / 25×10×0.075mm (100pcs) 100×10×0.05mm (20pcs) / 25×10×0.05mm (100pcs)
• Packing	1 set/box, 60 boxes/ctn
• Carton size	360×170×280mm
• Weight	8 kgs

### ► Matrix Band (Resin V-type)

> Can be used as a substitute for wedge floss and other materials such as dental wedges.  
> Isolate and protect adjacent teeth during sandblasting, acid etching and bonding repair.  
> Fill the gap during treatment to make the forming piece fit better with the tooth.

• Item	Q118
• Specification	12×0.1×10000mm
• Packing	1 roll/box

### ► Steel Matrice Bands

> Made of stainless steel, it features excellent hardness and elasticity, and can well restore the shape of defective tooth structure. When used with interproximal wedges, it can reduce gingival overhangs and effectively restore proximal contact points.

• Item	SC2301A / SC2301B / SC2301C
• Specification	L: 3m, T: 0.04mm, W: 5mm / 6mm / 7mm
• Packing	1 roll/box

### ► Forceps

> "8" smooth design forceps clamps, make the circles easily open or place. The plastic sleeve design, not easy to slip, good hand feeling.

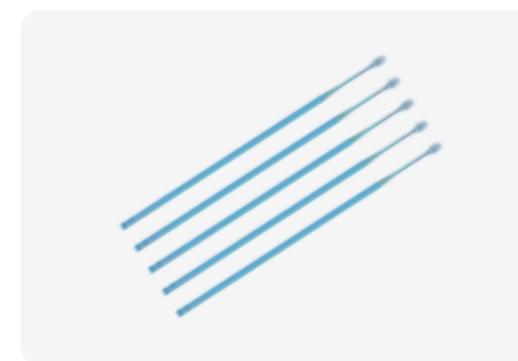

• Item	SC0701
• Packing	1 pc/box, 50 boxes/ctn
• Carton Size	280×280×220mm
• Weight	4.6 kgs

### ► Forceps

> High-quality texture, non-slip, it is better to use with Clamping Ring.  
> A reusable product can be sterilized at high temperature and pressure at 134°C after use.

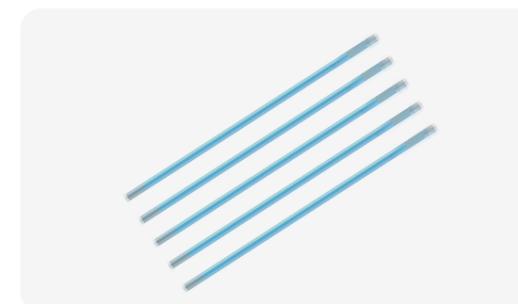

• Item	SC0702
• Packing	1 pc/box, 50 boxes/ctn
• Carton Size	280×280×220mm
• Weight	6.5 kgs

### ► Adhesive Tip Applicator

> Used to stick small device like ceramic veneer, inlay and Orthodontic bracket, special made glue tip with strong stick force but not remains left over, well-designed, convenient to use to avoid getting slipped from the forceps.

• Item	SC08
• Packing	20 pcs/box, 120 boxes/ctn
• Carton size	440×440×250mm
• Weight	6 kgs

### ► Adhesive Tip Applicator (Wax)

> Used to take small device like veneer, inlay and dental crown.

• Item	SC08B
• Packing	30 pcs/box, 200 boxes/ctn
• Carton size	450×230×405mm
• Weight	7.95 kgs

Item No.	A(±0.1mm)	B(±0.1mm)	C(±0.1mm)
WG01L	2.8mm	1.9mm	2.4mm
WG01M	2.0mm	1.3mm	1.7mm
WG01S	1.5mm	0.9mm	1.4mm

● Purple ● Orange ● Green

### ► WedgeGuard

> According to the size of adjacent gap, select the appropriate WedgeGuard and insert with forceps or handle from the buccal or lingual side between the desired preparation teeth and adjacent teeth. Then adjust the position to fit the tooth better. Later, the tooth preparation can be performed.

- **Item** WG01L / WG01M / WG01S
- **Thickness** 0.06mm
- **Packing** 50 pcs/box, 160 boxes/ctn
- **Carton size** 280×280×220mm
- **Weight** 11.2 kgs

Item No.	Color	Specification
PW01L	Purple	16×2.6×2.2mm
PW01M	Yellow	14×2.2×2mm
PW01S	Green	12×1.9×1.9mm
PW01SS	Blue	10×1.6×1.5mm

● Purple ● Yellow ● Green ● Blue

### ► Dental Wedge

> The design of the round tip protect gingival from damage, the square tail is very convenient to hold.

- **Item** PW01L / PW01M / PW01S / PW01SS
- **Packing** 100 pcs/bottle, 16 bottles/box, 36 boxes/ctn
- **Carton size** 430×430×290mm
- **Weight** 10~12 kgs

Item No.	Color	Specification
PW02L	Purple	17.8×2.8mm
PW02M	Yellow	17.8×2.45mm
PW02S	Green	17.8×2.1mm
PW02SS	Blue	17.8×1.7mm

● Purple ● Yellow ● Green ● Blue

### ► Dental Wedge

> Plastic wedge, round stem with a hole, easily of being taken, round edge with unattached, make the wedge more flexibility to be full filled in different teeth cracks.

- **Item** PW02L / PW02M / PW02S / PW02SS
- **Packing** 100 pcs/bottle, 16 bottles/box, 36 boxes/ctn
- **Carton size** 430×430×290mm
- **Weight** 9~11 kgs

Color	L(±0.5mm)	L(±0.5mm)	Y(±0.1mm)	H(±0.5mm)
Orange	11mm	3.5mm	1.5mm	1.3mm
White	14mm	4mm	1.5mm	1.5mm
Green	14mm	2mm	1.5mm	1.5mm
Blue	14mm	4mm	2mm	1.5mm
Yellow	16mm	4mm	1.5mm	1.5mm
Pink	16mm	4.5mm	2mm	1.5mm

● Orange ● White ● Green ● Blue ● Yellow ● Pink

### ► Dental Wedge

> Eco-friendly wooden wedge, round tips protect gingival from damage, smooth round edge, square stem. Six different sizes fits for different requirements.

- **Item** PW03
- **Packing** 100 pcs/bottle, 16 bottles/box, 36 boxes/ctn
- **Carton size** 430×430×290mm
- **Weight** 9~11 kgs

Item No.	Color	Specification
PW04L	Orange	81×2.7mm
PW04M	Blue	80×2.6mm
PW04S	Yellow	75×2.1mm

● Orange ● Blue ● Yellow

### ► Dental Wedge

> Long handle plastic wedge, integrated design, just break off the long handle lightly when the wedge is in place.

- **Item** PW04L / PW04M / PW04S
- **Packing** 100 pcs/bag, 100 bags/ctn
- **Carton size** 290×260×230mm
- **Weight** 5.8~6 kgs

Item No.	Color	Specification
PW05L(L/R)	Blue - Clear	19.5×6.7mm
PW05M(L/R)		17.6×6.8mm
PW05S(L/R)		15.6×6.8mm

● Blue ● Clear

### ► Dental Wedge

> This product is composed of Wedges and Matrix Bands, which can not be separated.

> The product is made of transparent plastic, which is convenient for curing and forming by light curing machine after filling with resin. It can effectively shorten the curing time and achieve excellent molding effect.

> The Dental Wedge with Matrix is designed to touch the patent's dental papilla in a rounded way. The outside design can effectively prevent slip, and feel good, the operation is convenient and quick.

> This product is an important auxiliary tool for the dentist in the key process of repair and healing.

- **Item** PW05L / PW05M / PW05S
- **Packing** 50 (L+R) pcs/box, 100 boxes/ctn
- **Carton size** 290×260×230mm

Item No.	Color	Specification
PW06L	Blue - Clear	17.7×8.8mm
PW06S		17.7×8.2mm

● Blue ● Clear

### ► Dental Wedge

> Product description identical to Item PW05.

- **Item** PW06L / PW06S
- **Packing** 50 (L+S) pcs/box, 100 boxes/ctn
- **Carton size** 290×260×230mm

Item No.	Color	Specification
PW07L	Purple	17.5×2.1×2mm
PW07M	Orange	16.8×1.7×1.9mm
PW07S	Green	16.4×1.7×1.6mm

● Purple ● Orange ● Green

### ► Dental Wedge

> The part in contact with the soft tissue and tooth neck is silicone, which can reduce the pressure and injury of the wedge to the gingival papilla.

> The main body is made of transparent material, which has a low resistance to light curing lamps. When a resin matrix band is used, a better curing effect can be obtained.

- **Item** PW07L / PW07M / PW07S
- **Packing** 50 pcs/box, 160 boxes/ctn
- **Carton size** 280×280×220mm
- **Weight** 10 kgs

# 02

## Dental Dam Kit

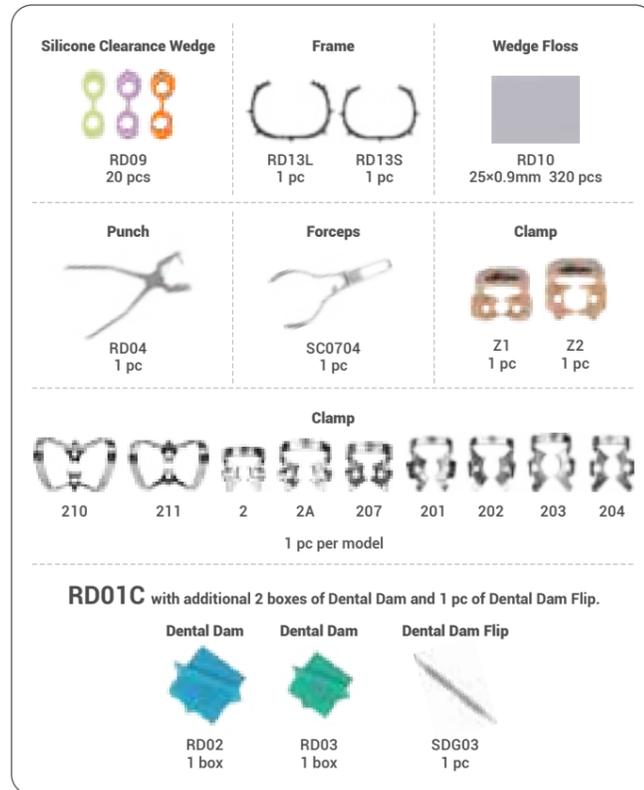

### Dental Dam Kit

> This dental isolation product enhances safety and efficiency by preventing ingestion of instruments, maintaining a dry/clean operative field, and blocking saliva contamination.  
 > It simplifies access, protects soft tissues, improves visibility, and reduces noise-saving time for precise, streamlined treatments.

• Item	RD01C / RD01E
• Packing	1 set/box, 5 boxes/ctn
• Carton size	450×270×305mm
• Weight	7.9 kgs

### RD01C / RD01E Contains:

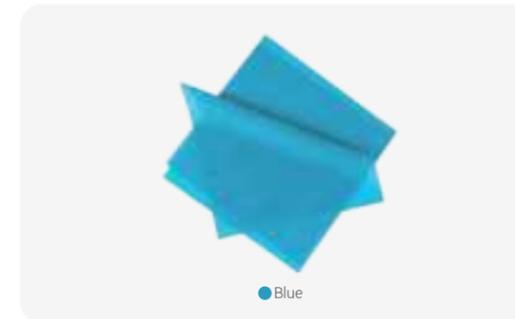

### RD12B Contains:

### Dental Dam Kit

> RD12B is used for isolation and protection during dental treatment.  
 > The set is designed for children's teeth and patients with small oral clefts.  
 > The clamp has a matte surface to reduce reflections and avoid visual fatigue.  
 > The clamp and frame can be sterilized at 134°C.

• Item	RD12B
• Packing	1 set/box
• Carton size	515×345×370mm

### Dental Dam

> Malaysia imported latex, high tear tolerance, good flexibility.

• Item	RD02
• Specification	6"×6", 152×152mm
• Packing	36 pcs/box, 40 boxes/ctn
• Carton size	360×360×150mm
• Weight	7.9 kgs

### Dental Dam (Non-Latex)

> Non-latex material, high tear resistance, excellent flexibility.

• Item	RD02B
• Specification	6"×6", 152×152mm
• Packing	10 pcs/box / 20 pcs/box

### Dental Dam

> Malaysia imported latex, high tear tolerance, good flexibility.

• Item	RD03
• Specification	5"×5", 127×127mm
• Packing	52 pcs/box, 40 boxes/ctn
• Carton size	300×300×200mm
• Weight	7.7 kgs

### Face Drape

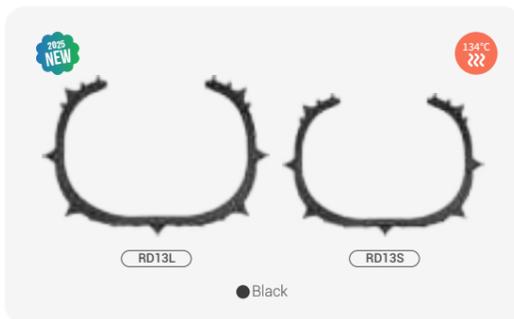

> Disposable non-woven dental face drapes with soft, breathable and splash-resistant performance.  
 > Single-use for hygienic dental procedures.

• Item	Q119
• Packing	100 pcs/box

### Punch

> The punch head is combined with a spring and a tapered structure, which can be automatically adjusted to ensure the taper head is aligned with the center of the cutting edge when drilling.

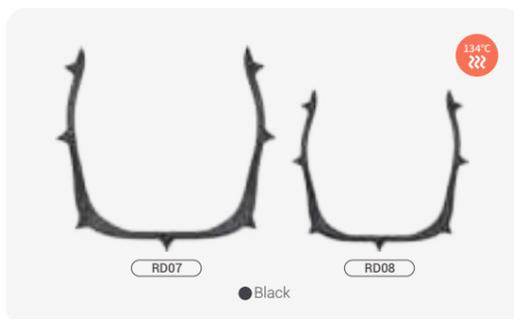

• Item	RD04
• Packing	1 pc/box
• Hole diameter size	0.8/1.0/1.4/1.6/1.8/2.0/2.3

► **Frame**

- > C-shaped design, better than traditional U-shaped arch in upward stretching of dam cloth, facilitating maxillary anterior teeth treatment.
- > Curved design, fitting the face, comfortable to wear, with a larger operative area.
- > Added floss post for easy floss placement during anterior teeth treatment.

• **Item** RD13L / RD13S  
 • **Packing** 1 pc/box , 66 boxes/ctn

► **Frame**

- > The frame is made of carbon fiber, with high hardness, strong toughness and is not easy to deform.
- > The shape is optimized to enhance the comfort when pulling the patient's mouth.
- > The round edge can avoid skin damage, convenient to place the rubber dam.

• **Item** RD07 / RD08  
 • **Packing** 1 pc/box, 50 boxes/ctn

► **Forceps**

- > Adjustable jaw opening (scientifically calculated) prevents rubber dam clamps from shortened service life due to over-opening; lift the limit block to spread matrix clamps.
- > Thickened forceps body ensures stable use.
- > Palm-fitting grip with moderate opening for comfortable use.

• **Item** SC0704  
 • **Packing** 1 pc/box

► **Clamp**

- > Reusable after 134°C high-temperature & high-pressure sterilization. Matte surface enhances texture & reduces glare. Groove design facilitates rubber dam placement; double-wing structure securely fits tooth surfaces.
- > Crafted from special materials for superior clamping force.

• **Item** RD06  
 • **Packing** 1 set/box

► **Clamp**

- > Reusable after 134°C high-temperature & high-pressure sterilization. Matte surface enhances texture & reduces glare. Groove design facilitates rubber dam placement; double-wing structure securely fits tooth surfaces.
- > Crafted from special materials for superior clamping force.

• **Item** RD06B  
 • **Packing** 1 set/box

► **Clamp**

- > Reusable after 134°C high-temperature & high-pressure sterilization. Matte surface enhances texture & reduces glare. Groove design facilitates rubber dam placement; double-wing structure securely fits tooth surfaces.
- > Crafted from special materials for superior clamping force.

• **Item** RD06C  
 • **Packing** 1 set/box

► **Clamp**

- > Small size resin clamps for adult premolar large size for adult molar.

• **Item** RD11 (Z1+Z2)  
 • **Packing** 1 set/box, 10 boxes/bag, 24 bags/ctn  
 • **Carton size** 360×360×280mm  
 • **Weight** 5.5 kgs

► **Clamp (Molar)**

- > Curved beak design ensures a snug, precise fit against the tooth surface.
- > Wingless construction delivers an unobstructed, clear field of view for accurate clinical procedures.
- > Works seamlessly with dental dams, assisting in placement and ensuring stable, reliable fixation.

• **Item** 26  
 • **Packing** 1 pc/bag, 50 bags/bag

► **Clamp (Molar)**

- > Curved beak design ensures a snug, precise fit against the tooth surface.
- > Wing with precision holes allows for easy retraction and manipulation of the dental dam during clinical procedures.
- > Works seamlessly with dental dams, assisting in placement and ensuring stable, reliable fixation.

• **Item** 201W  
 • **Packing** 1 pc/bag, 50 bags/bag

► **Clamp (Molar)**

- > The groove design of the clamp is convenient for the instrument to enter the groove and place the rubber dam.
- > The two-wing design of the clamp fits firmly with the teeth.
- > Using special material, the clamping force is stronger, and the matte surface design increases the texture of the product.

• **Item** 201 / 202 / 203 / 204  
 • **Packing** 1 pc/bag, 50 bags/bag

### ► Clamp (Molar)

- > The clamp's groove allows easy instrument access for rubber dam placement.
- > Its dual-wing design securely hugs tiny teeth.
- > Made with kid-friendly material for a stronger grip, plus a smooth matte finish makes it playful and gentle.

• Item 12A / 13A

• Packing 1 pc/bag, 50 bags/bag

### ► Clamp (kids)

- > The clamp's groove allows easy instrument access for rubber dam placement.
- > Its dual-wing design securely hugs tiny teeth.
- > Made with kid-friendly material for a stronger grip, plus a smooth matte finish makes it playful and gentle.

• Item 55 / 65 / 75 / 85

• Packing 1 pc/bag, 50 bags/bag

### ► Clamp (Anterior)

- > Clamps can be reused after autoclaving at 134°C.
- > Matte surface design enhances the premium texture and effectively reduces light reflection.

• Item 44

• Packing 1 pc/bag, 50 bags/bag

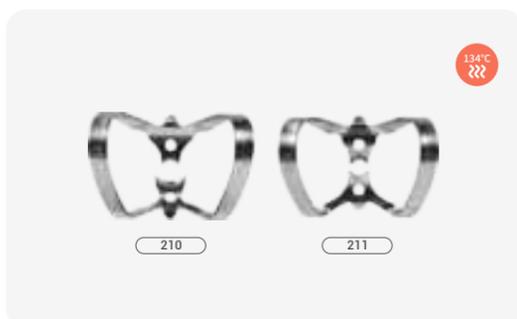

### ► Dental Dam Flip

- > Specifically designed for rubber dam procedures, facilitating dam placement and enhancing efficiency.
- > One end is shaped like a traditional filler, for easy folding of dam cloth into the gingival sulcus; the other is a four-way tip, enabling folding and traction of the dam cloth.

• Item SDG03

• Packing 1 pc/barrel, 5 barrels/box

### ► Clamp (Anterior)

- > The groove design of the clamp is convenient for the instrument to enter the groove and place the rubber dam.
- > The two-wing design of the clamp fits firmly with the teeth.
- > Using special material, the clamping force is stronger, and the matte surface design increases the texture of the product.

• Item 210 / 211

• Packing 1 pc/bag, 50 bags/bag

### ► Silicone Clearance Wedge

- > Silicone construction enables heat sterilization.
- > Secures dental dams; ideal for limited oral space — simply open with forceps and insert into the gum gap.

• Item RD09

• Packing 20 pcs/box, 10 boxes/bag, 24 bags/ctn

• Carton size 360×360×280mm

• Weight 7.5 kgs

### ► Clamp (Anterior)

- > Curved beak design for a snug, precise fit against the tooth surface.
- > Contoured bow design fits the lip, ensuring unobstructed visibility during dental procedures.
- > Works seamlessly with dental dams, assisting in placement and ensuring stable, secure fixation.

• Item 212

• Packing 1 pc/bag, 50 bags/bag

### ► Wedge Floss

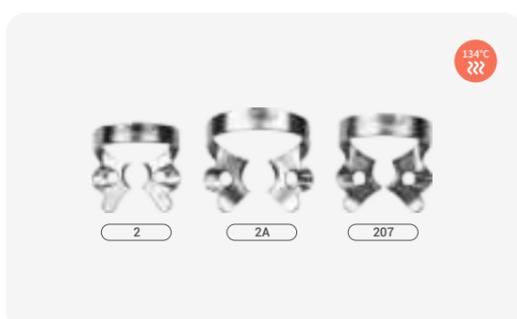

- > Latex wedge floss in a rowed design lets dentists take the exact amount needed for each patient's gum gap.
- > Highly elastic; replaces clamps for quick, secure dental dam fixation.

• Item RD10

• Packing 6 pcs/box, 10 boxes/bag, 24 bags/ctn

• Carton size 360×360×280mm

• Weight 5.5 kgs

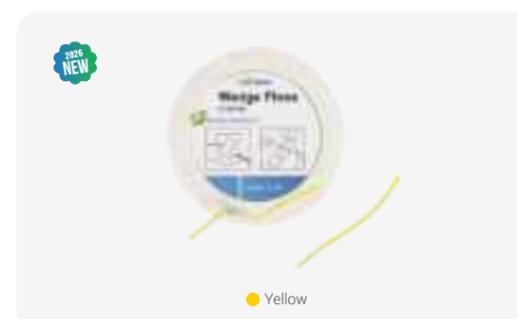

### ► Clamp (Premolar)

- > The groove design of the clamp is convenient for the instrument to enter the groove and place the rubber dam.
- > The two-wing design of the clamp fits firmly with the teeth.
- > Using special material, the clamping force is stronger, and the matte surface design increases the texture of the product.

• Item 2 / 2A / 207

• Packing 1 pc/bag, 50 bags/bag

### ► Wedge Floss

- > Wedge floss is made of latex and are elastic, thin threads.
- > Dental Dam are used to isolate teeth during dental treatments, Wedge floss coordinates with and assist in the application of dental dam.

• Item RD10B

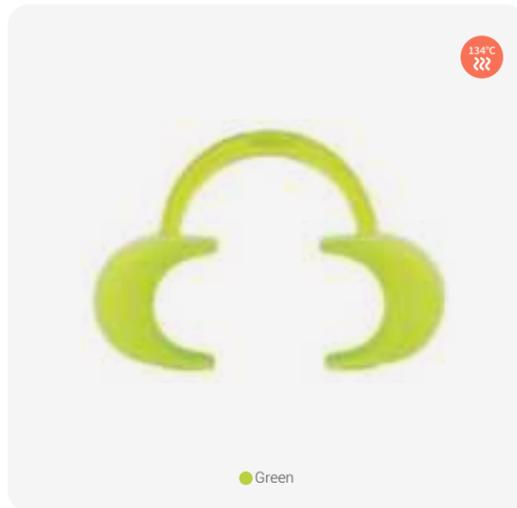

• Specification 1.4mm×2.1m

• Packing Length 2.1m/box

# 03

## Dental Retractor

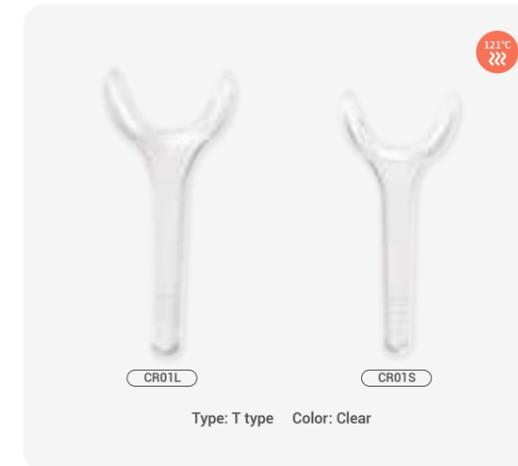

### Dental Retractor

> CR10S, rubber-coated dental retractor, the part where the retractor contacts the patient's mouth corners is coated with silicone, and the silicone material is more skin-friendly and comfortable. During oral treatment, the dental retractor can open the mouth and maintain a certain degree of opening. It is an auxiliary tool for dentists in the treatment process.  
> This product is reusable and can be sterilized at 134°C.

Item	CR10S
Specification	100×72×18mm
Packing	2 pcs/bag, 10 bags/box, 20 boxes/ctn
Carton Size	520×350×370mm
Weight	9 kgs

### Dental Retractor

> This product consists of a semilunar retractor and a handle. During oral treatment, the medical staff can place the retractor on one side of the mouth corner of the patient and gently pull the open lip to provide a clear surgical field vision.

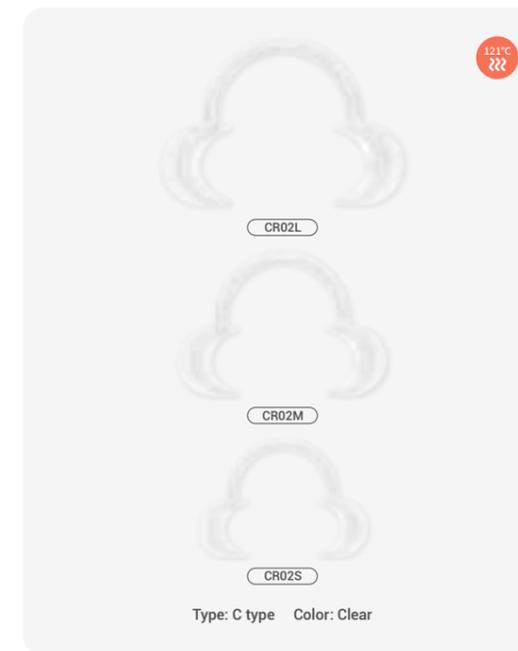

Item	CR01L	CR01S
Specification	120×53.5×18mm	114×42×17mm
Packing	2 pcs/box, 200 boxes/ctn	2 pcs/box, 200 boxes/ctn
Carton size	430×330×320mm	360×360×280mm
Weight	6.3 kgs	5.8 kgs

### Dental Retractor

> The parts of the retractor in contact with the two sides of the mouth of the patient use soft rubber to make protective design, which makes the patient more comfortable to use.  
> The outer side of the connecting, rod also adopts soft rubber packaging, design, nonslip and feel good.

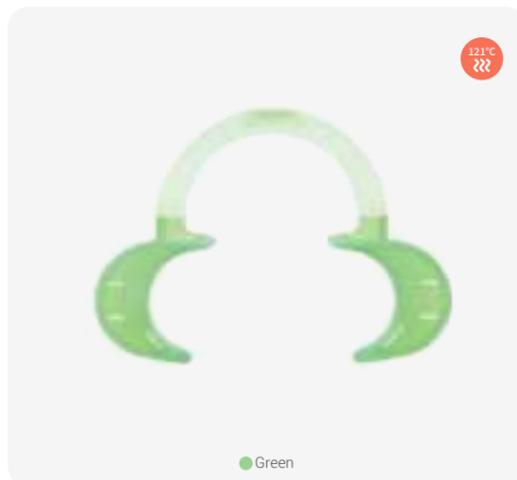

Item	CR10M / CR11M
Specification	118×85×21mm
Packing	2 pcs/box, 100 boxes/ctn
Carton Size	460×350×260mm
Weight	5 kgs

### Dental Retractor

> This product is composed of C-shaped connecting rod and retractor on both sides. The material has good strength and toughness. During oral treatment, put it at the corner of both sides of the patient, open the mouth and make it keep a certain degree of opening.

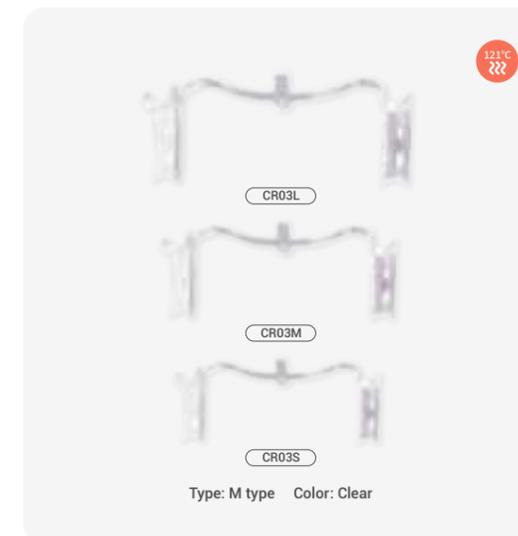

Item	CR02L	CR02M	CR02S
Specification	132×90×17mm	118×85×17mm	97×70×15mm
Packing	2 pcs/box 200 boxes/ctn	2 pcs/box 200 boxes/ctn	2 pcs/box 200 boxes/ctn
Carton size	500×360×440mm	500×360×440mm	430×335×290mm
Weight	8.2 kgs	8 kgs	5.5 kgs

### Dental Retractor

> Rubber-coated design where the dental retractor touches the patient's mouth on both sides can prevent patients from scratching their mouth when wearing and improve the comfort level of treatment.  
> This product is reusable and can be sterilized at 121°C.

Item	CR11S
Specification	66.5×91.5×32.7mm
Packing	2 pcs/box, 100 boxes/ctn
Carton Size	420×275×235mm
Weight	5 kgs

### Dental Retractor

> This product is M type design. In oral treatment, medical staff can place it in both sides of the mouth position separately to open the mouth, block the tongue, and provide a clear surgical field vision.

Item	CR03L	CR03M	CR03S
Specification	126×57×51mm	106×48×54mm	100×44×40mm
Packing	2 pcs/box 147 boxes/ctn	2 pcs/box 246 boxes/ctn	2 pcs/box 246 boxes/ctn
Carton size	420×420×470mm	420×420×470mm	420×420×470mm
Weight	6 kgs	8.6 kgs	7.5 kgs

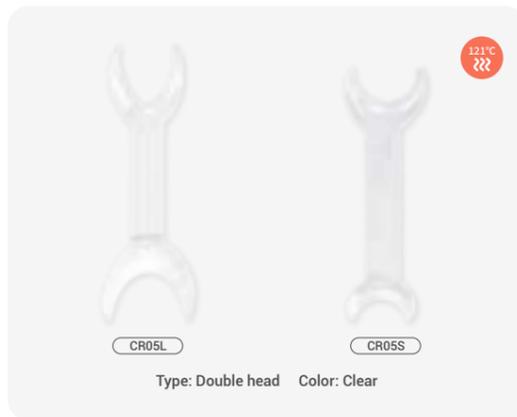

CR04L CR04S  
Type: O type Color: Clear

### ► Dental Retractor

> This product is a circular and hollow design. In oral treatment, medical staff can place it on both sides of the patient's mouth to open the oral vestibule and provide a clear surgical vision.

Item	CR04L	CR04S
Specification	84×80×22mm	70×68×35mm
Packing	10 pcs/bag, 100 bags/ctn	10 pcs/bag, 100 bags/ctn
Carton size	440×440×250mm	440×440×250mm
Weight	6.5 kgs	6.2 kgs

CR05L CR05S  
Type: Double head Color: Clear

### ► Dental Retractor

> This product is composed of double-headed semilunar retractor and handle are formed.

Item	CR05L	CR05S
Specification	167×55×24mm	145×45×20mm
Packing	2 pcs/box, 120 boxes/ctn	2 pcs/box, 120 boxes/ctn
Carton size	400×400×370mm	400×400×370mm
Weight	7.7 kgs	5.9 kgs

CR06 CR07  
Color: Clear

### ► Dental Retractor

Item	CR06	CR07
Packing	1 pc/pouch, 25 pouches/bag	
Carton Size	440×440×250mm	440×440×250mm
Weight	7.7 kgs	11.5 kgs

CR08L CR08S  
White Green

### ► Dry Field System Tubing

> The Dry Field System completely eliminates saliva and fully exposes both arches making it ideal for all bonding applications. The system is easy to assemble and be inserted and used by a single operator.  
> Set salivary absorption, retractor, tongue guard in one.

Item	CR08L	CR08S
Packing	1 set/box, 48 boxes/ctn	1 set/box, 50 boxes/ctn
Carton Size	440×440×250mm	460×350×260mm
Weight	5.8 kgs	5 kgs

### ► Dry Field System Tubing Component

> Remark: Components consist tongue guard, connection arm, position block, 2 pcs of silicone tubing and Y-connector.

Item	CR0802
Packing	1 set/box

CR09L CR09M CR09S  
Remark: Frosted Surface

### ► Dental Retractor

> It consists of C-shaped connecting rod and retractor on both sides. After special processing, the surface is white translucent, smooth, high strength and good toughness.

Item	CR09L	CR09M	CR09S
Specification	132×90×17mm	118×85×17mm	97×70×15mm
Packing	2 pcs/set, 10 sets/box, 20 boxes/ctn

### ► Mouth Prop & Tongue Guard

> Tongue guard block tongue moving so that no injury would happen during the whole treatment.

Item	MP02L	MP02M	MP02S
Packing	12 sets/box 20 boxes/ctn	12 sets/box 20 boxes/ctn	12 sets/box 20 boxes/ctn
Carton Size	540×400×490mm	540×400×490mm	540×400×490mm
Weight	11.5 kgs	10.5 kgs	9.5 kgs

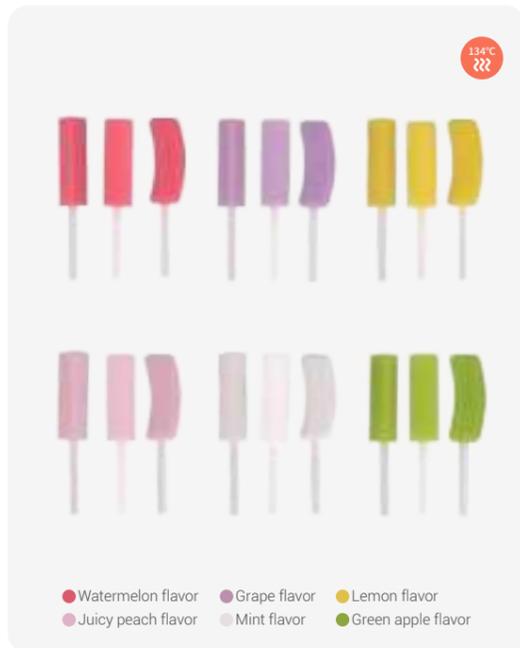

● Green

### ► Mouth Prop

> This dental bite block is a soft consumable, designed to provide comfortable oral support during procedures.  
 > It helps patients keep their mouths open, and the accompanying hook is intended to secure a saliva ejector, facilitating smooth dental operations and enhancing treatment efficiency.

• **Packing** 2 pcs + 1 pc hook

134°C

### ► Aligner Chewies

> Help aligner tray fit teeth closer to make sure reach preset orthodontics force.  
 > Bite for 5-10 minutes to avoid braces face.  
 > Gum bite and handle are designed separately, convenience and hygiene.

• **Item** MP03(Box)

• **Packing 1** 3 pcs/box, 400 boxes/ctn

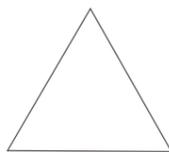

• **Packing 2** 2 pcs/box, 400 boxes/ctn

• **Item** MP03(Bag)

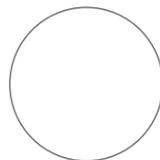

• **Packing 1** 2 pcs/pouch, 12 pouches/bag, 30 bags/ctn

• **Packing 2** 3 pcs/pouch, 12 pouches/bag, 30 bags/ctn

- Watermelon flavor ● Grape flavor ● Lemon flavor
- Juicy peach flavor ● Mint flavor ● Green apple flavor

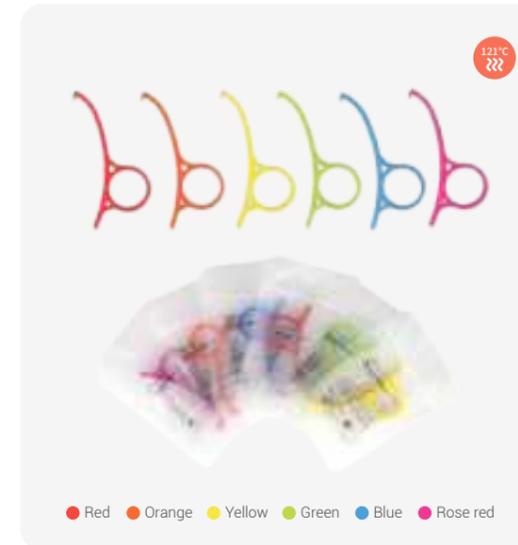

Triangular prism shape uses wedge-force principle to fit aligner tray for adjacent anterior or premolar region.

Cylinder is used to fit aligner tray in molar region with greater occlusal force, and it can also be used to exercise bite muscle.

Elliptical cylinder is mainly used to fit aligner tray in occlusal surface of posterior teeth.

121°C

### ► Retainer Retrievers

> Retainer retrievers help patients remove appliances cleanly and efficiently.  
 > Helps patients remove appliances from the buccal side cleanly and efficiently.  
 > The ring handle is easy to hold by hand when operating.  
 > This handy tool features specially designed hooks which help to remove clear retainers or aligners with ease.

• **Item** MP04

• **Packing** 1 pc/unit, 12 units/bag, 30 bags/ctn

• **Carton Size** 290×260×230mm

• **Weight** 2.1 kgs

Basic Configuration

Butterfly Embellished Edition

- Cyan ● Orange ● Yellow ● light blue
- Rose Red ● Green ● Blue

### ► Invisible Braces Box

> New high-quality materials not only have good aging resistance, ruggedness and durability, but also have a good texture. The lenses are separated from the braces layer by layer, and the dry and wet are separated to avoid stains.  
 > Put the aligner chewies and the retainer retriever into their fixed positions respectively, and use the upper plane mirror or the middle layer magnifying mirror when wearing the invisible aligners, extracting and using the orthodontic aligner chewies.

• **Item** DB21

• **Packing** 1 pc/box, 108 boxes/ctn

• **Carton Size** 420×275×235mm

• **Weight** 11 kgs

2025 NEW

DB22A

DB22B

Includes:  
1 Aligner Chewies  
1 Retainer Retrievers

### ► Invisible Braces Box

> Bionic design, simple and elegant.  
 > Exquisite and compact, easy to control.  
 > Built-in edible food-grade silicone material, no fear of bumps.

• **Item** DB22A / DB22B

• **Specification** 93×90×26mm

• **Packing** 1 pc/bag, 12 bags/box, 30 boxes/ctn

• **Carton Size** 540×410×490mm

# 04

## Micro Applicator

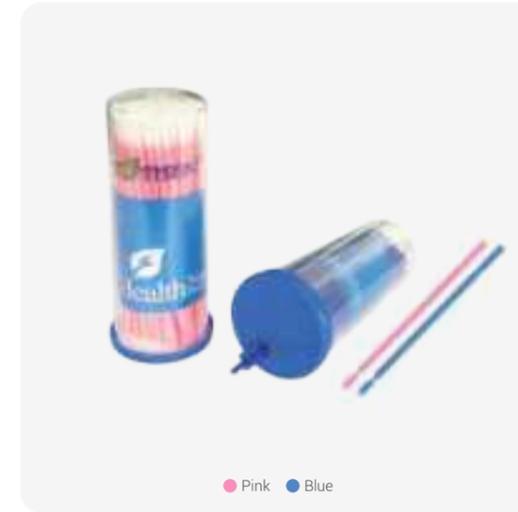

### ► Gingival Brushes

- > Shaping: Post-filling, shape resin to match tooth contour and occlusal surface.
- > Polishing: Smooth resin surfaces post-restoration for aesthetics and plaque resistance.
- > Cleaning: Remove debris/residue during procedures for optimal adhesion.
- > Detailing: Enhance texture/edges for natural-looking results.
- > Coating: Evenly apply adhesives/etchants pre-restoration for uniform bonding.

• Item	DH02
• Packing	1 set/box, 80 boxes/ctn
• Note	Refill for Flat-tip & Sharp-tip; 10 pcs/box each

### ► Gingival Brushes

- > It is mainly used to apply whitening gel, desensitizer, fluoride or other Gel-like liquid to achieve a uniform effect.
- > The front of Long Hair Brush is designed as a groove. The shape and angle can be adjusted arbitrarily, which is convenient for doctors to operate.

• Item	BA01
• Specification	50×110mm
• Packing	100 pcs/keg, 4 kegs/box, 32 boxes/ctn
• Carton Size	440×440×250mm
• Weight	14 kgs
• Tip length	9-10 mm

### ► Micro Applicator

- > The angle of brush head can be adjusted as needed. it can be used to dip dental etching agent, binder, cavity liner, fluor protector, hemostatic, fossa sealant, ect. Ultrathin Micro applicator, unusual design, make it possible to coat the medicine on the parties of dental cavity.

• Item	MA01R / MA01F / MA01SF / MA01K
• Specification	50×112mm
• Packing	100 pcs/keg, 4 kegs/box, 32 boxes/ctn
• Carton Size	440×440×250mm
• Weight	13.7 kgs
• Length	10 cm

Thickness	Color
Regular(2.0mm)	● Pearl Green ● Pearl Purple ● Pearl Yellow ● Pearl Blue
Fine(1.5mm)	● Pearl Orange ● Pearl White
Super fine(1.0mm)	● Pearl black
Ultrathin	

### ► Fiber-Free Micro Applicator

- > High molecular polymer hot melt integrated molding technology, 100% fiber-free and glue-free, no risk of bristle shedding.
- > Even bristles, stable liquid retention.
- > Hydrophobic surface can greatly reduce liquid residue, reducing drug waste by 70% compared to traditional applicator sticks.
- > Thermoplastic elastomer material, with good alkali resistance and corrosion resistance.

• Item	DYMA01R / DYMA01F / DYMA01SF
• Packing(100 pcs)	1 keg/box, 128 boxes/ctn
• Packing(30 pcs)	30 pcs/keg

### ► Micro Applicator

• Item	MA07
• Specification	146×71.2×92mm
• Packing	1 set/box, 32 boxes/ctn
• Carton Size	430×330×345mm
• Weight	7.7 kgs

### ► Applicator Tip

• Item	AT01L	AT01S
• Specification(Brush)	8-9mm	5-6mm
• Specification(Stick)	14×3.2mm	
• Packing	100 pcs/bag, 500 bags/ctn	
• Carton Size	320×320×240mm	
• Weight	6.5 kgs	

### ► Micro Applicator

• Item	MA08
• Specification	253×153×53mm
• Packing	1 set/box, 15 boxes/ctn
• Carton Size	480×300×320mm
• Weight	10.5 kgs

### ► Brush Holder

• Item	BH01
• Specification	142×13×6mm
• Packing	50 pcs/bag, 30 bags/ctn
• Carton Size	320×320×250mm
• Weight	8.5 kgs

# 05

## Prophy & Polishing Supplies

---

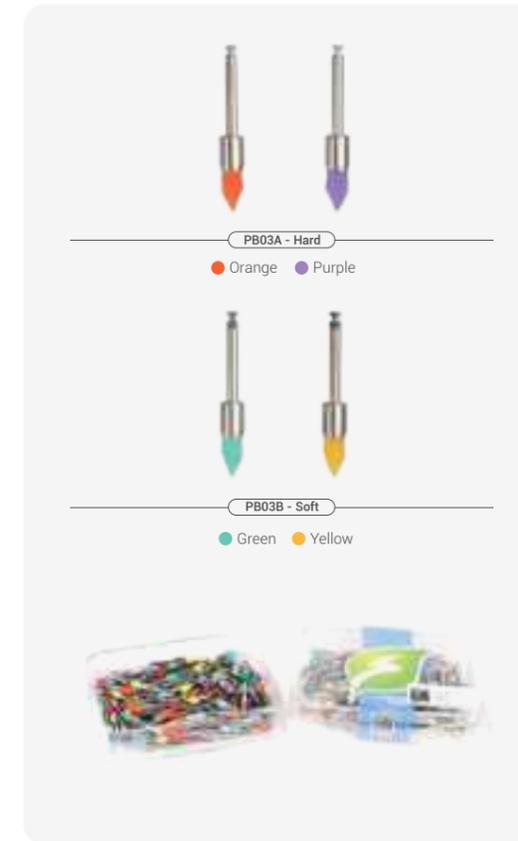

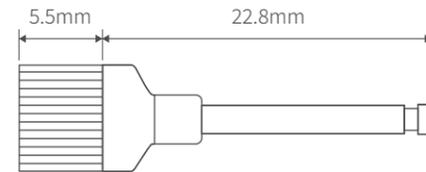

### ► Prophy Brush

> This product is composed of a metal handle and a working end. The metal handle is connected with the dental handpiece, and the working end is the brush. It is used for polishing the tooth restoration, and also for cleaning and polishing the surface of the tooth to make the surface smooth and even. Non-sterile provision, single use.

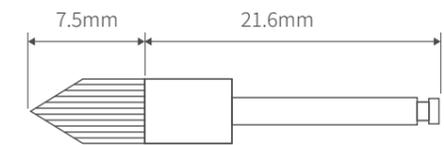

Item	PB01A	PB01B
Hardness	Hard	Soft
Shape	Cup-shaped	
Material	Nylon	
Specification	(Stick) 22.8mm, (Brush head) 5.5mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	19.4 kgs	

### ► Prophy Brush

> This product is composed of a metal handle and a working end. The metal handle is connected with the dental handpiece, and the working end is the brush. It is used for polishing the tooth restoration, and also for cleaning and polishing the surface of the tooth to make the surface smooth and even. Non-sterile provision, single use.

Item	PB03A	PB03B
Hardness	Hard	Soft
Shape	Tapered-shaped	
Material	Nylon	
Specification	(Stick) 21.6mm, (Brush head) 7.5mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	18.9 kgs	

### ► Prophy Brush

> This product is composed of a metal handle and a working end. The metal handle is connected with the dental handpiece, and the working end is the brush. It is used for polishing the tooth restoration, and also for cleaning and polishing the surface of the tooth to make the surface smooth and even. Non-sterile provision, single use.

Item	PB02A	PB02B
Hardness	Hard	Soft
Shape	Flat-shaped	
Material	Nylon	
Specification	(Stick) 21.6mm, (Brush head) 5.5mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	18.9 kgs	

### ► Prophy Brush

Item	PB01C
Shape	Cup-shaped
Specification	(Stick) 22.8mm, (Brush head) 5.5mm
Item	PB02C
Shape	Flat-shaped
Specification	(Stick) 21.6mm, (Brush head) 5.5mm
Item	PB03C
Shape	Tapered-shaped
Specification	(Stick) 21.6mm, (Brush head) 7.5mm

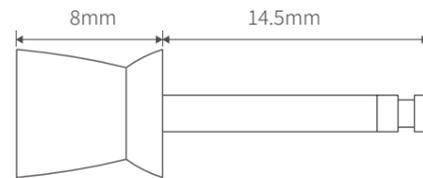

Material	bristles
Packing	100 pcs/box, 100 boxes/ctn
Carton Size	400×225×290mm
Weight	19.4 kgs

### ► Prophy Cup

> this product is composed of a metal stem and a silicone cup. The stem is made of nickel-plated brass, which is connected to the dental handpiece; the cup is made of silicone material. This product is non-sterile and does not contain grinding and polishing materials. The product is suitable for polishing, sanding and removing excess parts of restorations. It is also used for descaling and polishing the surface of teeth.

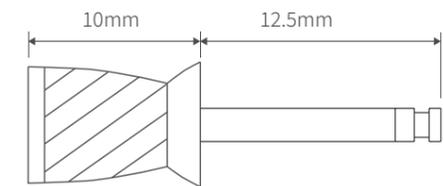

Item	PC01A	PC01B
Hardness	Hard	Soft
Design	6-web	
Material	Silicone	
Specification	(Stick) 14.5mm, (Silicone head) 8mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	10.5 kgs	

### ► Prophy Cup

> this product is composed of a metal stem and a silicone cup. The stem is made of nickel-plated brass, which is connected to the dental handpiece; the cup is made of silicone material. This product is non-sterile and does not contain grinding and polishing materials. The product is suitable for polishing, sanding and removing excess parts of restorations. It is also used for descaling and polishing the surface of teeth.

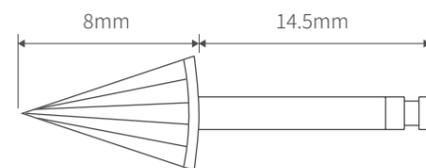

Item	PC03A	PC03B
Hardness	Hard	Soft
Design	Ribbed-shaped	
Material	Silicone	
Specification	(Stick) 12.5mm, (Silicone head) 10mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	10.5 kgs	

### ► Prophy Cup

> this product is composed of a metal stem and a silicone cup. The stem is made of nickel-plated brass, which is connected to the dental handpiece; the cup is made of silicone material. This product is non-sterile and does not contain grinding and polishing materials. The product is suitable for polishing, sanding and removing excess parts of restorations. It is also used for descaling and polishing the surface of teeth.

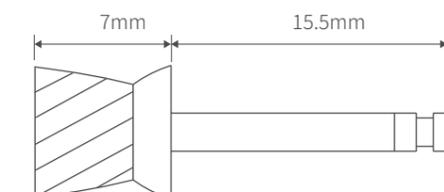

Item	PC02A	PC02B
Hardness	Hard	Soft
Shape	Umbrella-shaped	
Material	Silicone	
Specification	(Stick) 14.5mm, (Silicone head) 8mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	10.5 kgs	

### ► Prophy Cup

> this product is composed of a metal stem and a silicone cup. The stem is made of nickel-plated brass, which is connected to the dental handpiece; the cup is made of silicone material. This product is non-sterile and does not contain grinding and polishing materials. The product is suitable for polishing, sanding and removing excess parts of restorations. It is also used for descaling and polishing the surface of teeth.

Item	PC04A	PC04B
Hardness	Hard	Soft
Design	8-web	
Material	Silicone	
Specification	(Stick) 15.5mm, (Silicone head) 7mm	
Packing	100 pcs/box, 100 boxes/ctn	
Carton Size	400×225×290mm	
Weight	10.5 kgs	

### ► Prophy Paste

- > Individual packaging is clean and hygienic.
- > More Flavors, More Choices.
- > Tooth shape design can be used by hand without a prophy paste ring.

• Item	PC05F / PC05M
• Packing (Set)	1 set/box, 50 boxes/ctn
• Carton size	420×300×340mm
• Packing (Jar)	50 pcs/box, 100 boxes/ctn
• Carton size	420×300×340mm
• Packing (Tube)	40g/box, 90 boxes/ctn
• Color	Mint-Green / Blueberry-Purple

Set

Jar

Tube

### ► Prophy Strip

- > PS01, Not easy to lose sand, after the special sand planting process.
- > There are two granularities, for a single strip, which is more convenient to use.

• Item	PS01A / PS01B
• Specification	152×4mm
• Packing	50 pcs/box, 40 boxes/box, 20 boxes/ctn
	25 pcs (PS01A) + 25 pcs (PS01B) /set
• Carton size	635×440×315mm

● Purple ● Blue

### ► Prophy Strip (Roll)

- > PET + Alumina material, sand-resistant, 2 grit sizes & 2 widths available; built-in cutting blade for easy access; purple and blue options.

• Item	PS13A / PS13B	PS13C / PS13D
• Color	Purple	Blue
• Thickness	50µm	30µm
• Specification	6m×4mm / 6m×2.5mm	
• Packing	1 Roll/Box	

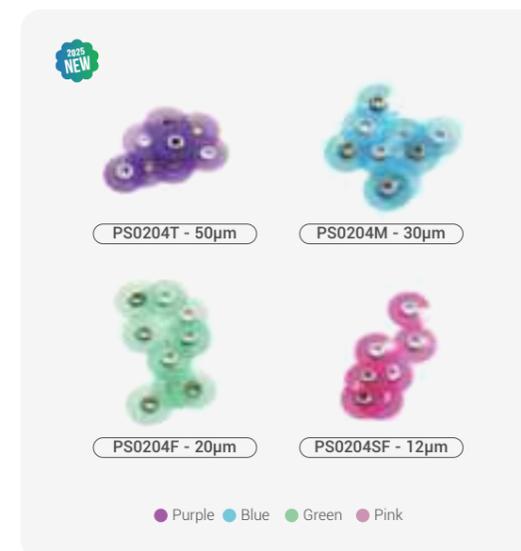

● Purple ● Blue ● Green ● Pink

### ► Polishing Discs for Dental

- > The product is used to polish interproximal surface of anterior teeth, refine labial surface enamel and resin restoration.
- > It is made of highly resilient material, and it will not deform in work process.
- > Not easy to lose sand, after the special sand planting process.

• Item	PS0202T / PS0202M / PS0202F / PS0202SF
• Packing	1 set (40 pcs discs + 2 metal handle) /box
	100 boxes/ctn
• Carton size	400×225×290mm

● Purple ● Blue ● Green ● Pink

### ► Polishing Discs for Dental (Eyelet Version)

- > The product is composed of metal handle and a working end, the metal handle is connected with the dental instrument, and the working end is disc-shape.
- > Used for polishing the tooth restoration, and also for cleaning and polishing the surface of the tooth to make the surface smooth and even.

• Item	PS0204T / PS0204M / PS0204F / PS0204SF
• Packing	1 set (40 pcs discs + 1 metal handle) /box
	100 boxes/ctn
• Carton size	400×225×290mm

### ▶ Composite Polisher for Dental

> Suitable for grinding and polishing of dental composite resin restorations.

• Item	PS10A (Resin-Specific)
• Specification	95×50mm
• Packing	1 set/box
• Revolution/empf	8000-12000
• Max revolution/max	20000

### ▶ Composite Polisher for Dental

> The product is used in conjunction with handpiece.  
 > The product is non-sterile and does not contain abrasive polishing materials. The brush head is made of silicone, and the stem is made of nickel-plated bras.  
 > The product is suitable for polishing, sanding and removing excess parts of restorations, or cleaning of implants. It is also used for descaling and polishing the tooth surface.

• Item	PS03 / PS04 / PS05
• Packing	10 pcs + 1 metal handle/box, 10 boxes/bag, 24 bags/ctn
• Carton size	420×300×340mm

### ▶ Composite Polisher for Dental

> Suitable for grinding and polishing of dental composite resin restorations.

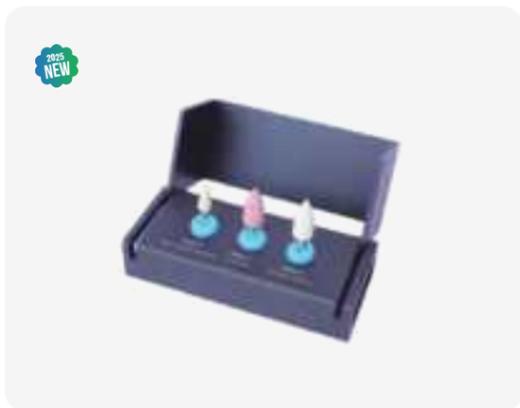

• Item	PS10B (Resin-Specific)
• Specification	74×60×38mm
• Packing	1 set/box

### ▶ Composite Polisher for Dental

> The product is used in conjunction with a handpiece. It consists of a metal shank (with a precision-engineered spiral texture) and a silicone cup. The metal shank is connected to the handpiece.  
 > The product is suitable for polishing, sanding, and removing excess parts of restorations, or cleaning implants. It is also used for descaling and polishing the tooth surface.

• Item	PS06M / PS06F
• Packing	4 pcs/box

### ▶ Composite Polisher for Dental

> Applicable for grinding and polishing of all-ceramic teeth.

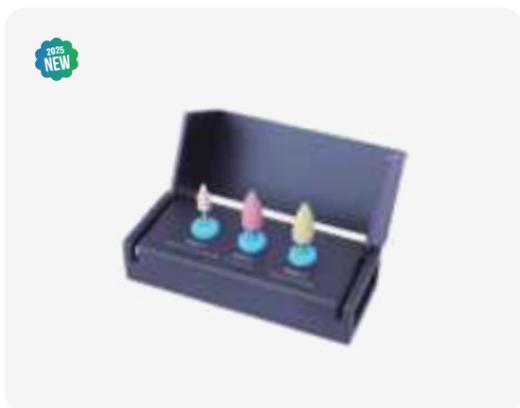

• Item	PS11A (All Ceramic-Specific)
• Specification	60×25mm
• Packing	1 set/box
• Revolution/empf	10000-15000
• Max revolution/max	20000

### ▶ Composite Polisher for Dental

> Composite Polisher for Dental - Specialized Refill. Fits original, safe & durable for clinical use.

• Item	PS03B01 / PS03B02 / PS03B03
• Packing	15 pcs/box
• Revolution/empf	10000-15000
• Max revolution/max	20000

### ▶ Composite Polisher for Dental

> Applicable to the grinding and polishing of zirconia dental restorations.

• Item	PS12A (Zirconia-Specific)
• Specification	60×25mm
• Packing	1 set/box
• Revolution/empf	10000-15000
• Max revolution/max	20000

### ▶ Composite Polisher for Dental

> Composite Polisher for Dental - Specialized Refill. Fits original, safe & durable for clinical use.

• Item	PS03C01 / PS03C02 / PS03C03
• Packing	9 pcs/box
• Revolution/empf	10000-15000
• Max revolution/max	20000

► **Composite Polisher for Dental**

> Composite Polisher for Dental - Specialized Refill. Fits original, safe & durable for clinical use.

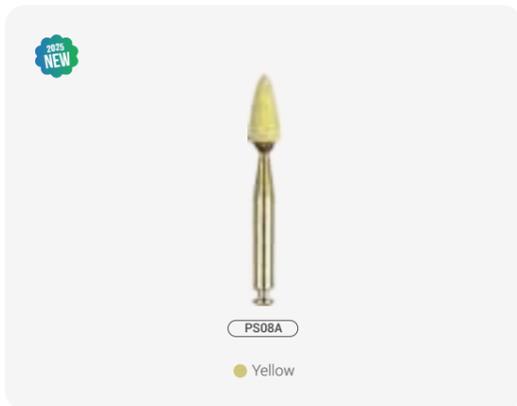

· Item	PS04B01 / PS04B02 / PS04B03
· Packing	15 pcs/box
· Revolution/empf	10000-15000
· Max revolution/max	20000

► **Composite Polisher for Dental**

> Composite Polisher for Dental - Specialized Refill. Fits original, safe & durable for clinical use.

· Item	PS05B01 / PS05B02 / PS05B03
· Packing	15 pcs/box
· Revolution/empf	10000-15000
· Max revolution/max	20000

► **Composite Polisher for Dental**

> Composite Polisher for Dental - Specialized Refill. Fits original, safe & durable for clinical use.

· Item	PS08A

## Bur Holder Box

► **Bur Holder Box**

> BB01, it is made of plastic material, can place high speed burs and low speed burs.  
 > Bottom part can be autoclavable at 121°C.

• Item	BB01
• Specification	89×66mm
• Packing	1 pc/box, 60 boxes/ctn
• Carton Size	480×290×320mm
• Weight	6 kgs
• Remarks	60 slots

● Blue ● White

● Blue

► **Bur Holder Box**

• Item	BB09
• Specification	120×53mm
• Packing	1 pc/box, 54 boxes/ctn
• Carton Size	400×400×370mm
• Weight	7 kgs
• Remarks	166 slots

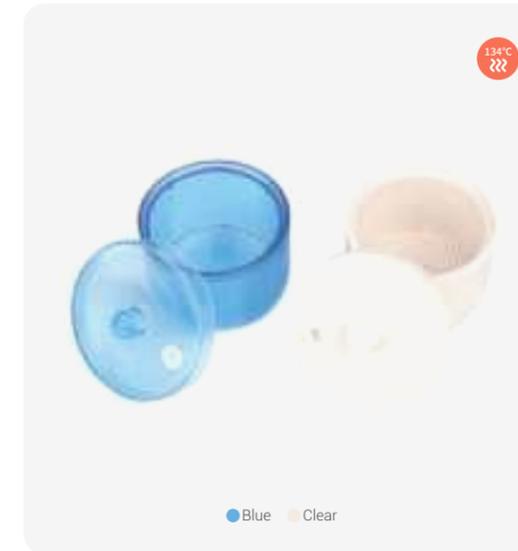

► **Bur Holder Box**

> BB02, it is made of plastic, specially designed for high-speed burs.  
 > Bottom part can be autoclavable at 121°C.

• Item	BB02
• Specification	74×60×36mm
• Packing	1 pc/box, 100 boxes/ctn
• Carton Size	430×270×240mm
• Weight	4.5 kgs
• Remarks	24 slots

● Blue ● White

● Blue ● Clear

► **Bur Holder Cleanser**

> BC01, it is made of autoclavable plastic materials, suitable for the placement of tools such as burs, root canals, and enlarged needles before oral treatment; with transparent materials, dentists can easily find the tools they need.

• Item	BC01
• Specification	83×90mm
• Packing	1 pc/box, 48 boxes/ctn
• Carton Size	390×390×270mm
• Weight	7.5 kgs
• Remarks	60 slots

► **Bur Holder Box**

> BB03, it is made of plastic material, can place high speed burs and low speed burs.  
 > Bottom part can be autoclavable at 121°C.

• Item	BB03
• Specification	89×91mm
• Packing	1 pc/box, 60 boxes/ctn
• Carton Size	480×390×320mm
• Weight	7 kgs
• Remarks	60 slots

● Blue ● White

● Green

► **Grinding Carriage**

• Item	BF06
• Specification	128×82×23mm
• Packing	1 pc/box, 200 boxes/ctn
• Carton Size	500×360×440mm
• Weight	14 kgs

# 07

## Base Plate Wax

### ► Base Plate Wax

> BP01, non handle base plate wax is a new product made of environmentally friendly plastic materials. It has good plasticity, uniform thickness, no need to mix, without odor, and easy to do operation.  
 > The product is suitable for dentist or technicians to make base plate, arrange teeth and form wax patterns.

• Item	BP01
• Specification	(UpperJaw) 95×65×2mm (Lower Jaw) 95×65×2mm
• Packing	10 for upper jaw and 10 for lower jaw/box 20 boxes/ctn
• Carton Size	340×245×380mm
• Weight	7.4 kgs
• Color	Blue

Steps for usage:

Make the first impression and finish the plaster model, fill the undercut with wax before making the temporary base.

Mark the base line to confirm the edge of the temporary base, and then apply the separating medium on the model.

Put the plaster model into soaking box and put the base plate on it, add 70-80°C hot water in the box. 1 minute later, the base plate can become transparent and adhere to the model, and then take out them.

Make the shaped, pay attention to making the edge of temporary base smooth.

Put the finished base plate and model into cold water together, and separate them when they are hard totally and polish the edge to remove the sharp edge.

### ► Base Plate Wax

> BP02, With handle base plate wax is a new product made of environmentally friendly plastic materials. It has good plasticity, uniform thickness, no need to mix, without smell, and easy to do operation.  
 > The product is used for accurate impression of edentulous jaws.

• Item	BP02
• Specification	(Upper Jaw) 95×94×3.5mm (Lower Jaw) 95×90×3.5mm (Side Edge) 86×22.5×3mm (Anterior Teeth) 62×59×3mm
• Packing	5 for upper jaw, 5 for lower jaw, 3 for anterior teeth, 2 for each side of mouth/box, 20 boxes/ctn
• Carton Size	340×245×380mm
• Weight	8.14 kgs

Steps for usage:

Put base plate wax into 70-80°C hot water. 1 minute later, the base plate can become transparent, and then take out them.

Make the shape on the model, pay attention to making the edge of base plate wax smooth.

Wait the base plate wax become to hard.

Remove the base plate from model and polish the edge to remove the sharp edge.

### ► Base Plate Wax

> BP03, no need tray, no mixing, green materials, and no odor. During operation, the small pieces are soaked in hot water at 70-80 °C, then softened and placed on the teeth that need to be repaired. After the film is hardened, the original tooth shape can be recorded.  
 > It is mainly used in dental restoration to create a single crown with a complete crown or a temporary crown bridge with fewer units(3 or fewer).

• Item	BP03
• Specification	30.5×15.4×2mm
• Packing	50 pcs/box, 20 boxes/ctn
• Carton Size	190×150×130mm
• Weight	2 kgs

### ► Wax Rim

> BP04, the wax embankment is made into one body, and adheres to the position of the alveolar ridge of the maxillary base according to the arch shape, easy to operate and saves time for dentists. It can also be used as a functional balance of occlusal wax.  
 > The red wax rim is hard and the blue wax rim is soft, which can meet the requirements of different temperature environments.

• Item	BP04
• Specification	60.7×47×10.8mm
• Packing	12 pcs/box, 48 boxes/ctn
• Carton Size	440×440×250mm
• Weight	7.05 kgs

### ► Rim Former for Dental Use

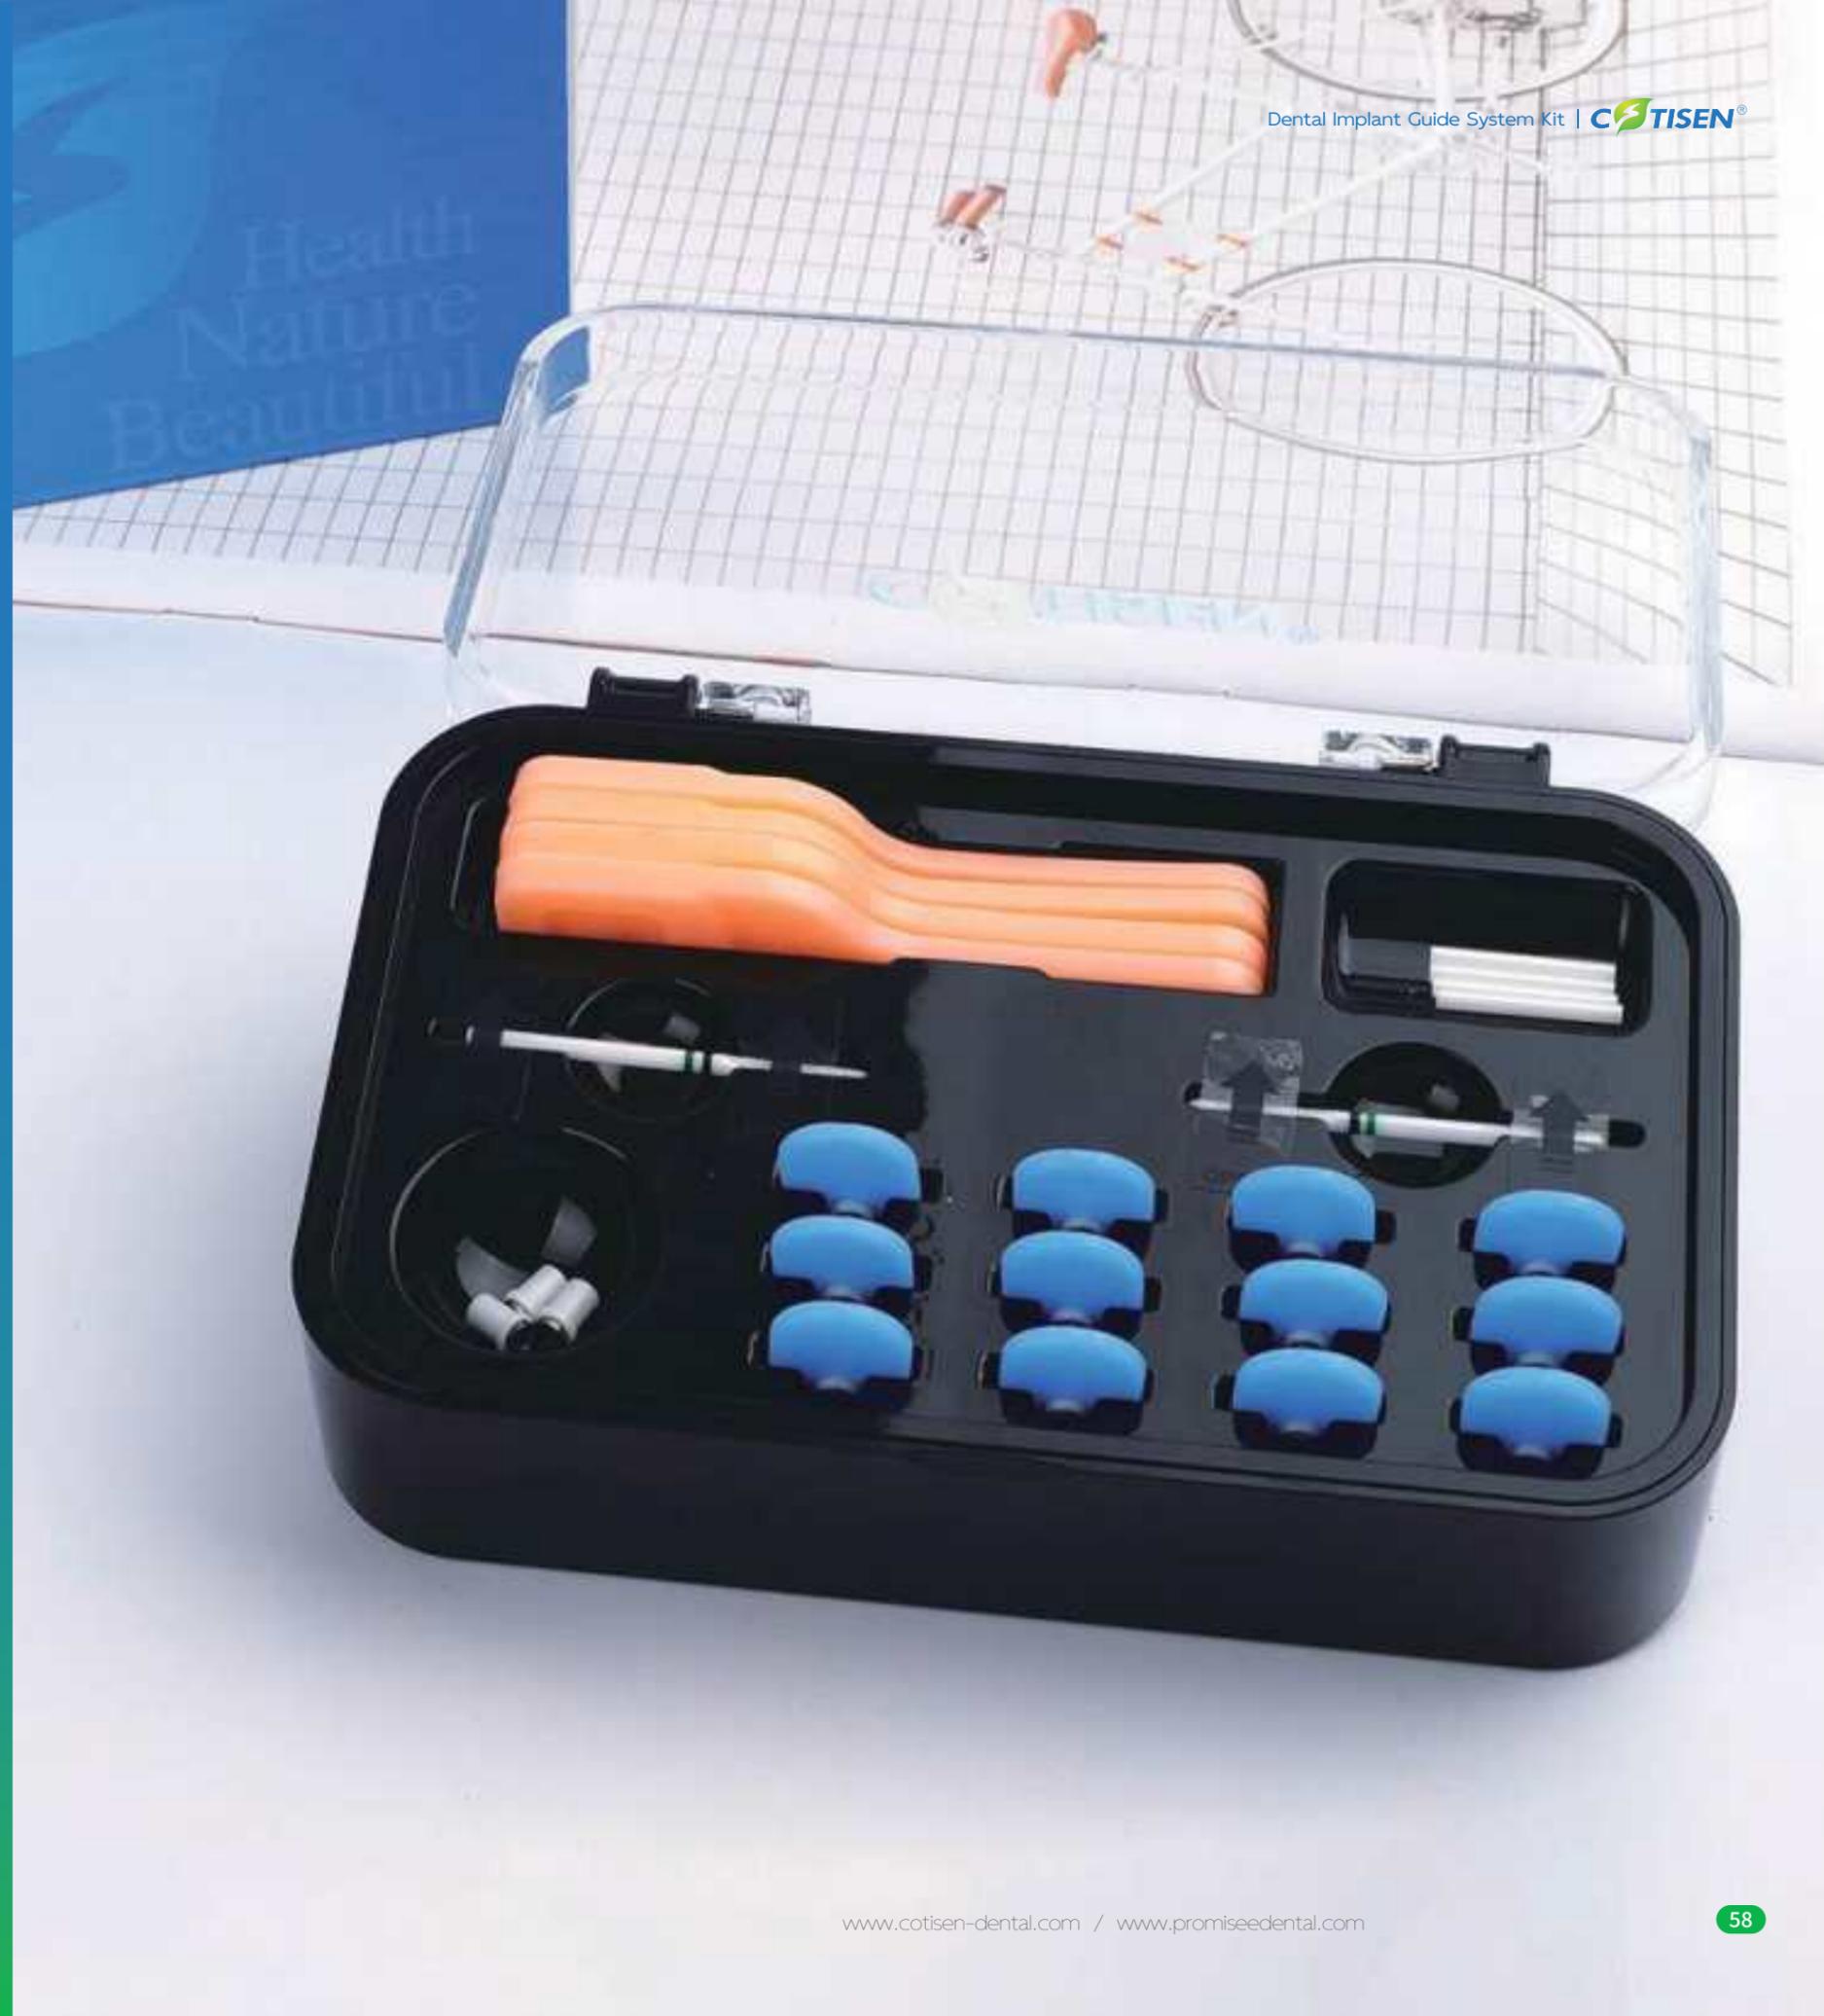

> BP05, it is mainly used as a tool for dentists to fabricate upper and lower bite rims.  
 > The overall shape of the shovel head resembles a square circle. The edge of the working end is rolled up like a dustpan, with the rolled-up part forming an obtuse angle relative to the shovel head's flat surface.  
 > The part below the triangular depression is closed up to hold excessive wax material.

• Item	BP0501 (Left hand) / BP0502 (Right hand)
• Packing	1 pc/box, 100 boxes/ctn
• Carton Size	440×440×250mm
• Weight	16.5 kgs

# 08

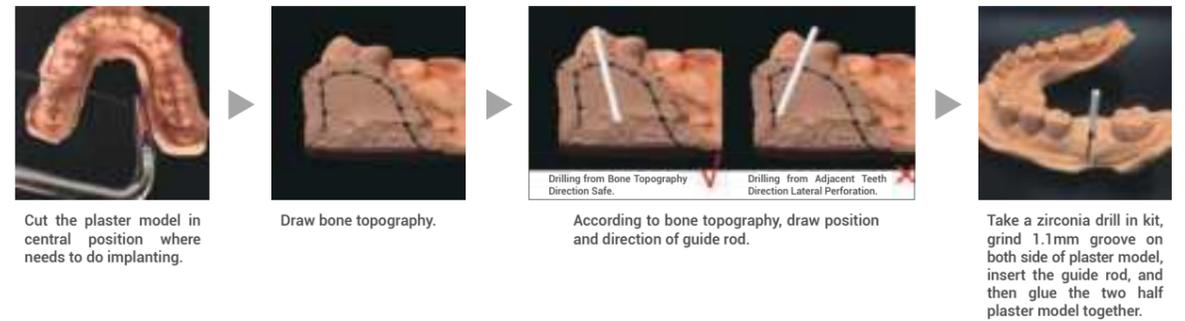

## Dental Implant Guide System Kit

---

### ▶ Instruction Manual for the Planting Guide Kit

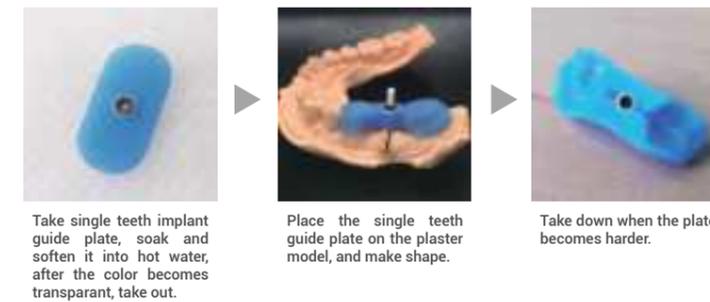

Cut the plaster model in central position where needs to do implanting.

Draw bone topography.

According to bone topography, draw position and direction of guide rod.

Take a zirconia drill in kit, grind 1.1mm groove on both side of plaster model, insert the guide rod, and then glue the two half plaster model together.

### Operation of single tooth implant guide plate

Take single teeth implant guide plate, soak and soften it into hot water, after the color becomes transparent, take out.

Place the single teeth guide plate on the plaster model, and make shape.

Take down when the plate becomes harder.

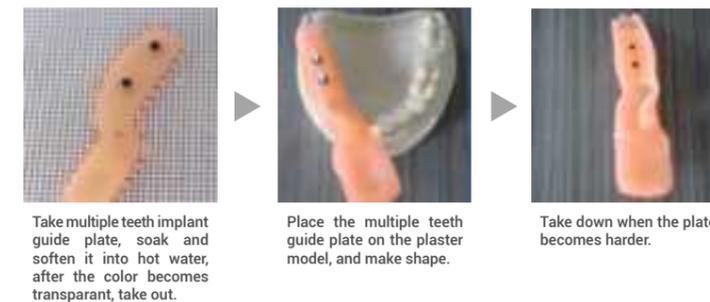

Black inner ring suits for drill below 2.3mm.

White inner ring suits for drill below 3.0mm.

### Operation of multiple tooth implant guide plates

Take multiple teeth implant guide plate, soak and soften it into hot water, after the color becomes transparent, take out.

Place the multiple teeth guide plate on the plaster model, and make shape.

Take down when the plate becomes harder.

Black inner ring suits for drill below 2.3mm.

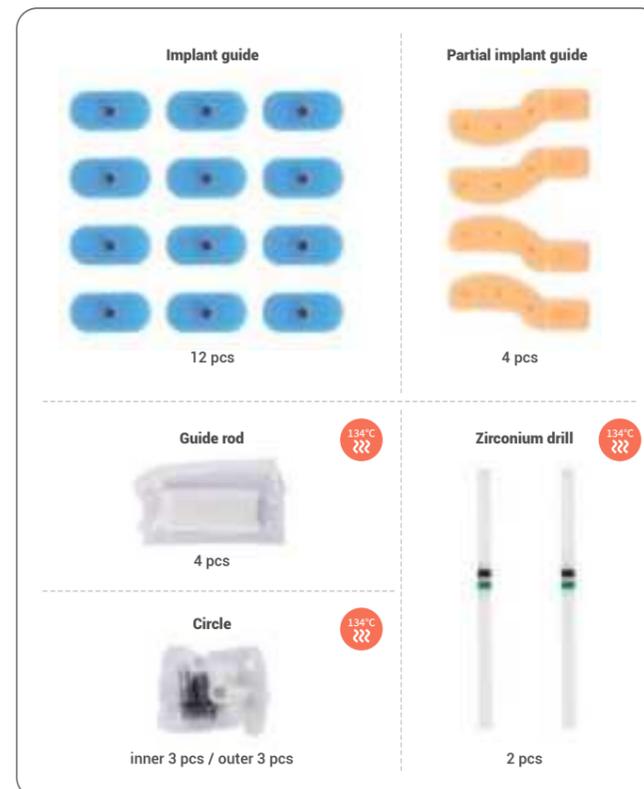

White inner ring suits for drill below 3.0mm.

### ▶ Dental Implant Guide System Kit

- > IG05, it is suitable for the implant of single teeth and multiple teeth, determine the location more accurately and quickly.
- > Zirconia material, it can be autoclavable at 134°C, with high hardness and high strength, good at wear resistance and oxidation resistance.
- > The thermoplastic film can be softened after hot water immersion to cover and make retention on the adjacent teeth.
- > A better operation position can be positioned by the system.
- > Given the location and quantity of implant, the system can be for single tooth and multiple teeth.

• Item	IG05
• Specification	150×100.7×45mm
• Packing	1 set/box, 10 boxes/ctn

### IG05 Contains:

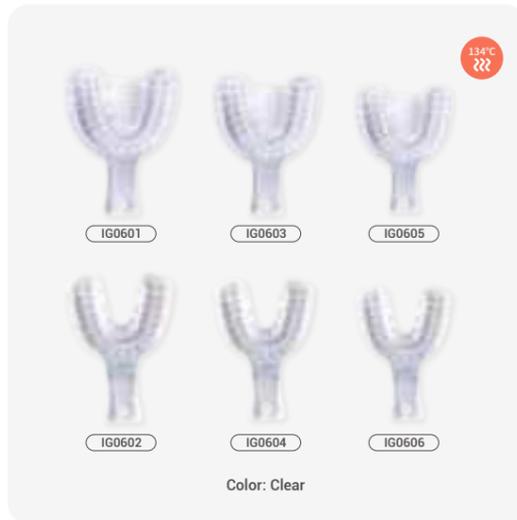

# 09

## Impression Tray

---

### ► Implant Tray

> we use special transparent materials for easy observation of the direction of the teeth and implant rods. There are 18 detachable fan-shaped bottom plates attached to the bottom of the dental arch area, which can be quickly and easily removed according to the tooth position. This product does not need to make individual tray again, no need to punch holes, just remove the bottom plate corresponding to the implant rod. it is suitable for planting impression or conventional impression taking.

> It's disposable, need to do heat sterilization at 134°C.

• Item	IG06
• Packing	6 pcs/bag, 100 bags/ctn
• Carton Size	790×410×530mm
• Weight	12.4 kgs

### ► Implant Tray

> According to different arch shapes, choose a correct implant tray. Rotate the implant tray into the oral cavity, determine the corresponding impression-bearing area of the transfer handle and mark it. Remove the corresponding base plate, mix the impression material, pour it evenly into the tray and put it into the mouth.

> We use one-time model taking technology, so please rotate the transfer handle before solidification and take both model and implant tray out.

• Item	IG07
• Packing	6 pcs/bag, 100 bags/ctn
• Carton Size	790×410×530mm
• Weight	9.8 kgs

### ► Implant Tray

Type I:

> There are 18 detachable fan-shaped plates at the bottom of the arch area, which can be removed quickly and conveniently according to the tooth position.

Type II:

> The arch area is covered with an easily penetrating film that takes the mold accurately and cleanly.

• Item	IG04
• Carton Size	440×440×245mm

### ► Disposable Impression Tray

> The Disposable Impression Tray consists of an inner tray and an outer tray. The outer tray is made of rigid engineering plastic, providing sufficient support for the impression material; the inner tray and outer tray are mechanically interlocked and nested together, effectively securing the impression material within the tray; the inner tray's sidewall area features porous structures that prevent demolding through physical locking mechanisms, ensuring precise impression formation.

• Item	IT01
• Packing	10 pcs/bag, 100 bags/ctn (1 set) 10 pcs/box, 56 boxes/ctn
• Carton Size	(bag) 460×400×490mm (box) 500×360×440mm
• Weight	(bag) 12 kgs / (box) 9 kgs

### ► Autoclavable Impression Tray

> The Autoclavable Impression Tray consists of an inner tray and an outer tray. The outer tray is made of high-temperature-resistant engineering plastic, providing sufficient support for the impression material; the inner tray and outer tray are mechanically interlocked and nested together, effectively securing the impression material within the tray; the inner tray's sidewall area features porous structures that prevent demolding through physical locking mechanisms, ensuring precise impression formation.

> It supports high-temperature high-pressure sterilization at 121°C and is reusable.

• Item	IT02
• Packing	10 pcs/bag, 100 bags/ctn (1 set) 10 pcs/box, 56 boxes/ctn
• Carton Size	(bag) 460×400×490mm (box) 500×360×440mm
• Weight	(bag) 10 kgs / (box) 7.5 kgs

### ► Adjustable Impression Tray

> IT05, the product has the stability of stainless steel, the deformability of plastic steel, and the comfort of plastic, which will eventually form an individual tray.

> It is not easy to deform after molding, and can be reused.

• Item	IT05
• Packing	6 pcs/box, 20 boxes/ctn
• Carton Size	320×290×390mm
• Weight	4 kgs

### ► Impression Tray Holder

> IT06, the bottom of the product is composed of a base, vertical frame, back slat, tray and hanging bar.

> It is mainly used to place the impression tray after getting the mold, to avoid sticking or squeezing deformation of the impression tray after getting the mold, and to more effectively ensure the completeness and accuracy of the mold.

• Item	IT06
• Packing	1 set/box, 16 boxes/ctn
• Carton Size	520×440×350mm
• Weight	14 kgs

### ► Bite Tray

> IT07, the product consists of an alveolar and a handle. There is no front-to-back connection to accurately obtain the dental mold and reduce the foreign body sensation during the treatment of the patient.

• Item	IT07
• Packing	20 pcs/box, 32 boxes/ctn
• Carton Size	440×430×250mm
• Weight	4.5 kgs

### ► Impression Tray

> According to different patient's mouth situations, adjusting shape and size of the product and put it into their mouth.

• Item	IT08
• Packing	6 pcs/box

### ► Tray Base

• Item	TB01	
• Shape	Square head	Pointed head
• Specification (L)	100×78×28mm	100×82×28mm
• Specification (M)	90×69×28mm	90×72×28mm
• Specification (S)	81×60×28mm	81×63×28mm
• Packing	1 set/box, 45 boxes/ctn	
• Carton Size	440×320×250mm	
• Weight	13 kgs	

### ► Teeth Whitening Tray

> Silicone medical EVA material thermoplastic dental tray, with high transparency, molded tray can maintain high transparency, especially suitable for use with cold light whitening instrument.

> Can be repeatedly molded, even if molded effect is not good, and it can be reshaped in hot water at 70°C.

> As a tray for tooth whitening and whitening glue, it can also be used as an anti-wear tooth tray.

• Item	TT01
• Packing	2 pcs/unit, 10 units/bag, 50 bags/ctn
• Carton Size	460×350×260mm
• Weight	7.5 kgs

### ► Bite Tray

• Item	BT01	BT02	BT03
• Packing	20 pcs/bag 50 bags/ctn	20 pcs/bag 50 bags/ctn	20 pcs/bag 50 bags/ctn
• Carton Size	520×350×375mm	460×350×260mm	430×430×290mm
• Weight	8.1 kgs	5.5 kgs	7.4 kgs

• Item	BT04	BT05

• Carton Size	420×270×230mm	280×260×230mm
• Weight	3.6 kgs	1.8 kgs

### ► Disposable Fluoride Foam Tray

> DT01, it is made of PE material, which is mainly used for washing teeth and protecting fluorine.

> The product is soft and flexible, which is comfortable for patients to bite, It can bite the upper and lower teeth at the same time, making the treatment process more convenient and quick.

• Item	DT01L	DT01M	DT01S
• Specification	193×65mm	180×60mm	160×55mm
• Packing	50 pcs/bag 50 bags/ctn	50 pcs/bag 60 bags/ctn	50 pcs/bag 80 bags/ctn
• Carton Size	710×360×655mm	710×360×655mm	710×360×655mm
• Weight	5.8 kgs	5.5 kgs	5.8 kgs

### ► Disposable Dental Fluoride Foam Tray

> Dental fluoride foam tray is a disposable oral product, suitable for dental fluoride application. After filling with fluoride foam, bite down to immerse teeth in the foam to prevent dental caries.

> The main material is polyethylene foam, meeting the needs of children and people of all ages.

## Dental Ruler

---

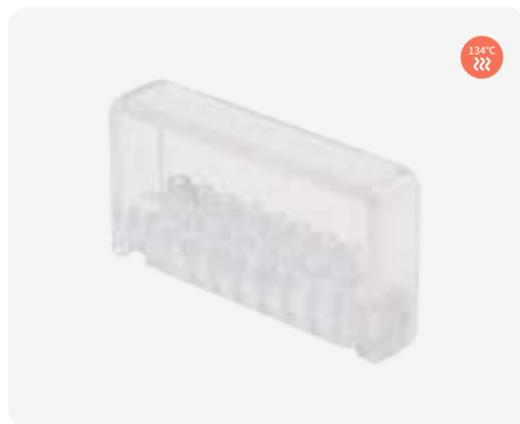

### ► Gutta-Percha Measuring Ruler

> BF0517, promisee Dental developed the gutta-percha measuring ruler which made of Zirconia.  
 > Length range is 30mm, hole diameter is from 20-80, total 11 tapered holes, which can meet the requirements of gutta percha point accuracy Length and diameter.  
 > Suitable for accurate measurement of the diameter of the apex of the main apex of the gutta-percha point, and can also be used as a tool for inspecting the wear of the root canal instrument.  
 > Ultra-high accuracy, the accuracy does not change under different environments.

**Advantage:**

> Health and environmental protection. Ceramic material itself has chemical stability, antioxidant, restless, acid and corrosion resistant.  
 > Stylish appearance, mellow color, pure, jade texture, bring noble enjoyment.  
 > Smooth Surface, easy to clean. High hardness, high wear resistance. High temperature and pressure resistant.  
 > It is applicable to accurate tip diameter measurement and also can be used as a tool to test tip wear of root canal instruments.

• Item	BF0517
• Specification	90×20×3.5mm
• Packing	1 pc/box

### ► Bur Holder Frame

• Item	BF01
• Specification	65×38×12mm
• Packing	20 pcs/bag, 36 bags/ctn
• Carton Size	440×340×300mm
• Weight	8.6 kgs
• Remarks	16 slots

### ► Root Canal Frame

> BF02, the product is made of PA material and has a hollow structure, which is convenient for taking instruments. It is mainly used for measuring the length of root canal files during dental treatment.

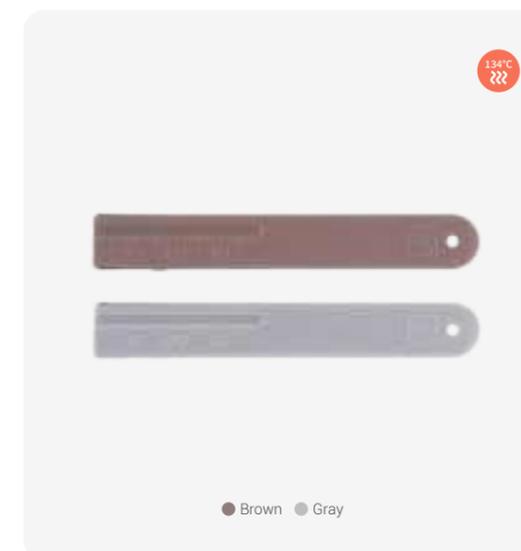

• Item	BF02
• Specification	75×52.5×10mm
• Packing	3 pcs/box, 48 boxes/ctn
• Carton Size	265×170×180mm
• Weight	4.5 kgs

### ► Root Canal Measuring Table

> BF03A/BF03B, the product is made of PA material, which is autoclavable 134°C, and has a hollow structure design, which is convenient for handling equipment.

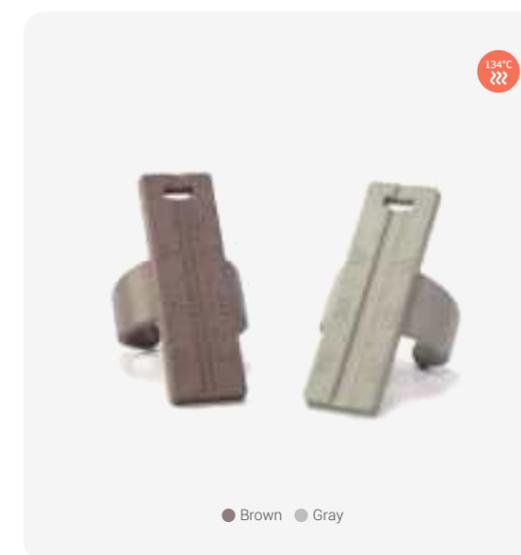

• Item	BF03A	BF03B
• Specification	89×20.6×32mm	89×26×32mm
• Packing	1 pc/box, 250 boxes/ctn	
• Carton Size	320×320×250mm	430×270×240mm
• Weight	9 kgs	9.6 kgs

### ► Microdont

> BF04, the product is made of PA material, which is autoclavable 134°C, easy to do operation.

• Item	BF04
• Specification	90×13×2.8mm
• Packing	3 pcs/package, 10 packages/box, 14 boxes/ctn
• Carton Size	240×155×107mm
• Weight	2 kgs

### ► Root Canal Measuring Ruler

> BF05, the product is made of PA material, which is autoclavable 134°C, easy to do operation.

• Item	BF05
• Specification	42×23.3×23.9mm
• Packing	2 pcs/package, 24 packages/box, 6 boxes/ctn
• Carton Size	240×155×107mm
• Weight	1.5 kgs

### ► Spatula

> Dentists can choose different types of spatula according to different medicines and mixing amounts; the deformed design of the handle and the texture of the matte increase friction and are convenient to use.

• Item	SP01
• Specification	195×32mm
• Packing	50 pcs/bag, 10 bags/ctn
• Carton Size	420×270×240mm
• Weight	10 kgs

### ► Spatula

• Item	SP02
• Specification	185×25mm
• Packing	50 pcs/bag, 20 bags/ctn
• Carton Size	420×270×240mm
• Weight	9 kgs

### ► Spatula

• Item	SP03
• Specification	185×33mm
• Packing	25 pcs/bag, 16 bags/ctn
• Carton Size	420×270×240mm
• Weight	10 kgs

### ► Mixing Rod

• Item	MR01
• Packing	100 pcs/bag, 70 bags/ctn
• Carton Size	290×260×230mm
• Weight	12.8 kgs

### ► Mixing Paper

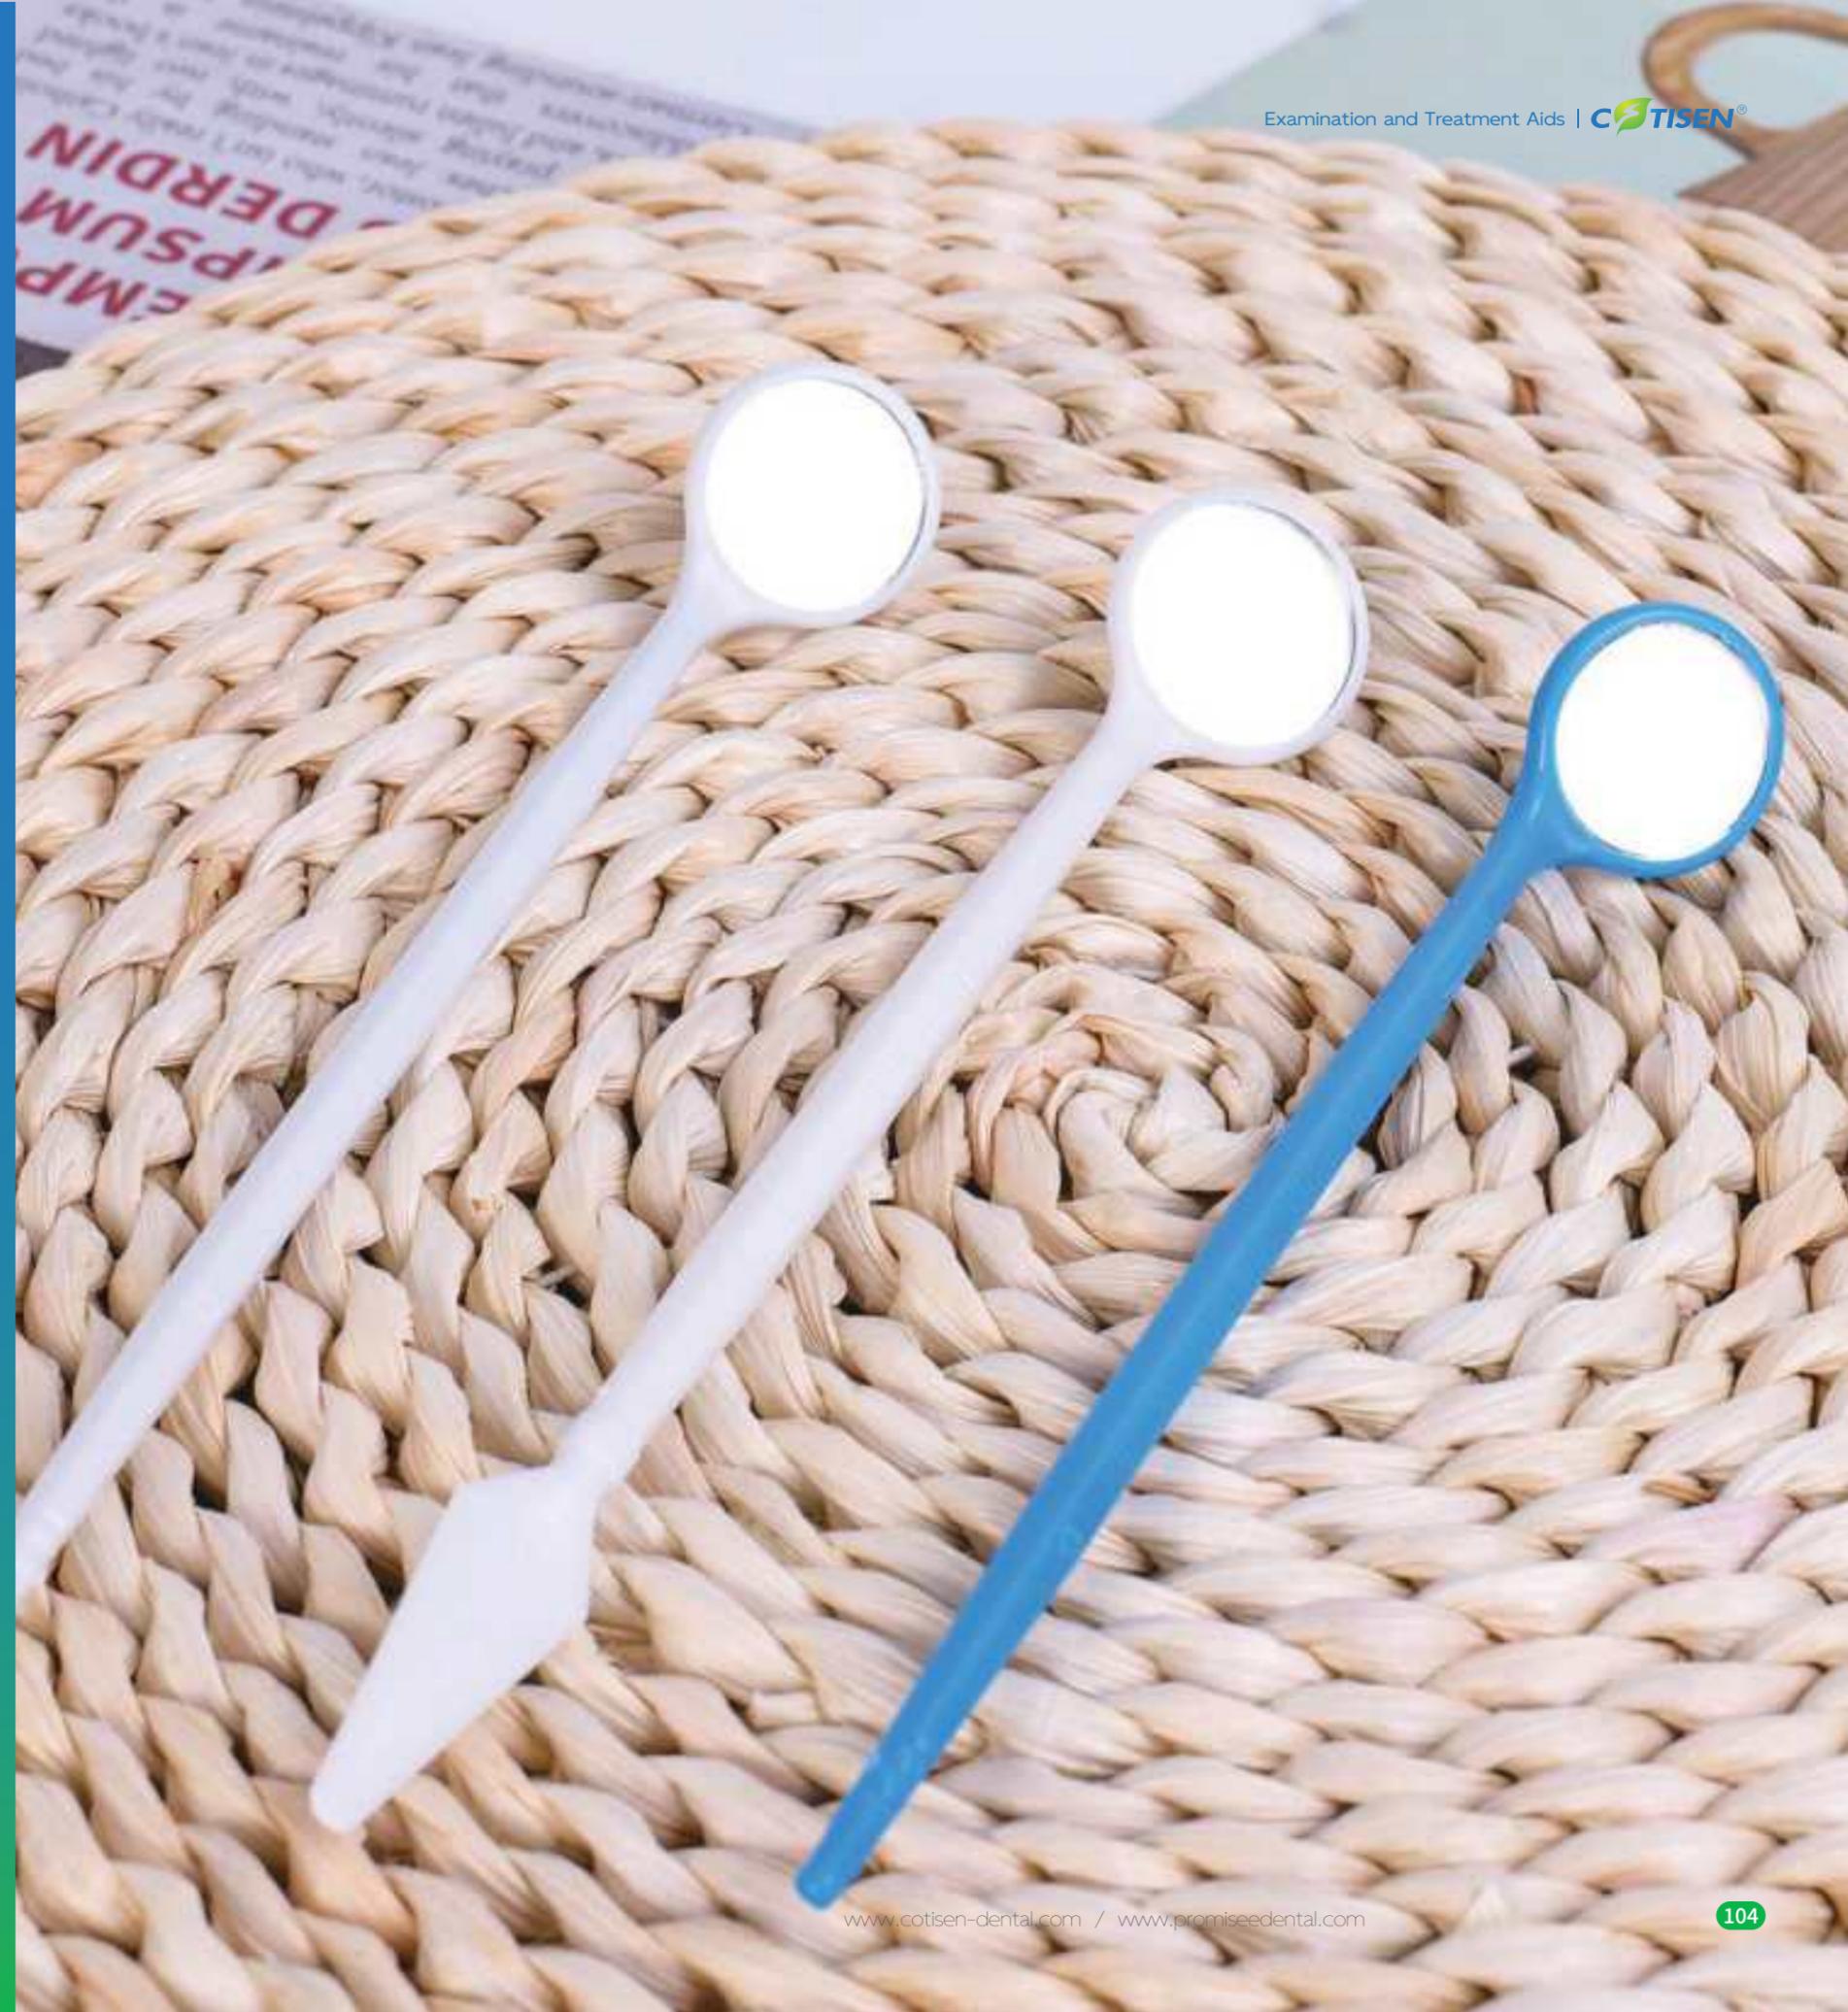

> Adopts double-sided PVC coating technology, composed of waterproof film, synthetic paper, and PE film, and features thickened, anti-seepage, and wear-resistant properties, meeting the needs of dental material mixing.

• Specification	7.5cm × 7.5cm
• Packing	50 sheets/book, 10 books/box

# 17

## Examination and Treatment Aids

---

► Disposable Mouth Mirror

• Item	MM01
• Specification	160×20mm
• Packing	1 pc/pouch, 100 pouches/bag, 20 bags/ctn
• Carton Size	430×430×290mm
• Weight	14 kgs

● Yellow ● Blue ● White ● Pink

► Disposable Mouth Mirror

> Anti-fog.  
> The doll can be disassembled and is designed with cute patterns, that let children not resist dental care.

• Item	MM02
• Packing	20 pcs/box, 20 boxes/ctn
• Carton Size	415×210×320mm

► Disposable Mouth Mirror

• Item	MM04
• Specification	170×20mm
• Packing	1 pc/pouch, 100 pouches/bag, 20 bags/ctn
• Carton Size	430×430×290mm
• Weight	15 kgs

● White

► Disposable Mouth Mirror

> Oral Examination / Retraction / Aspiration of saliva

• Item	MM05
• Packing	50 pcs/box, 20 boxes/ctn
• Carton Size	430×330×290mm

► Mouth Mirror

> Clear imaging, vivid colors, front surface reflection, no ghosting. Unique hydrophobic technology enables water droplets to bead up and roll off effortlessly.  
> The multi-curved arc perfectly conforms to the contour of mouth corners for stable retraction.  
> An integrated endodontic ruler is featured at the handle end.

• Item	MM06
• Packing	1 pc/box, 100 boxes/ctn
• Carton Size	430×430×245mm

► Mouth Mirror (Large Handle)

> Anti-fog lens for an ultra-clear visual field, ensuring unobstructed visibility for dentists during dental procedures.  
> Ergonomic large thick handle for a comfortable grip and effortless operation.  
> Multiple color options available.

• Item	MM07A
• Packing	1 pc/bag, 50 bags/box, 20 boxes/ctn
• Carton Size	440×430×305mm

► Mouth Mirror (Small Handle)

> Anti-fog lens delivers an ultra-clear visual field, ensuring unobstructed visibility for dentists during dental treatments.  
> The handle tip is designed as a mixing tool for added operational convenience.  
> Multiple color options available.

• Item	MM07B
• Packing	1 pc/bag, 60 bags/box, 20 boxes/ctn
• Carton Size	440×430×305mm

► Disposable Dental Examination Kit (3in1)

• Item	DK01
• Packing	1 set/pouch, 20 pouches/bag, 25 bags/ctn
• Carton Size	420×270×230mm
• Weight	10.5 kgs

### ► Disposable Dental Examination Kit (3in1)

• Item	DK01A
• Packing	1 set/pouch, 20 pouches/bag, 25 bags/ctn
• Carton Size	420×330×310mm
• Weight	10.5 kgs

### ► Disposable Plastic Tray

• Item	DPT01
• Specification	190×148×15mm
• Packing	400 pcs/ctn
• Carton Size	310×210×195mm
• Weight	2.65 kgs

### ► Disposable Dental Examination Kit (7in1)

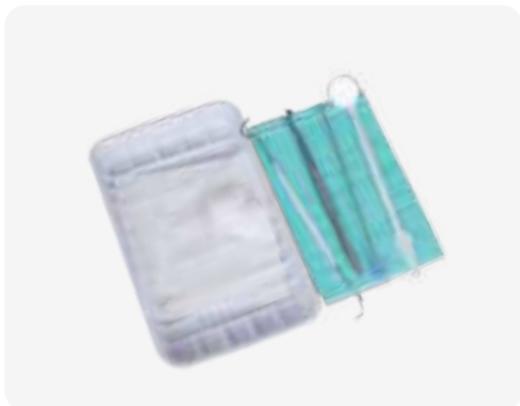

> Ideal for the diagnosis and treatment of dental, avoid of all kinds of diseases because of cross-infection. Sterilized by ethylene oxide strictly, two years valid date. Including: mouth mirror, probe, forceps, bibs, facial tissue, tray, cotton balls.

• Item	DK03
• Packing	200 sets/ctn
• Carton Size	600×390×310mm
• Weight	9 kgs

### ► Disposable Plastic Tray

• Item	DPT02
• Specification	190×148×15mm
• Packing	400 pcs/ctn
• Carton Size	310×210×195mm
• Weight	2.68 kgs

### ► Disposable Dental Examination Kit (8in1)

> It is used for oral diagnosis and treatment, through strict disinfection and sterilization of ethylene oxide, which can prevent various diseases caused by cross infection. Including: mouth mirror, probe, forceps, bibs, facial tissue, tray, saliva ejector.

• Item	DK04
• Packing	200 sets/ctn
• Carton Size	600×390×310mm
• Weight	10 kgs

### ► Disposable Plastic Tray

• Item	DPT03
• Specification	289×190×17mm
• Packing	400 pcs/ctn
• Carton Size	400×305×140mm
• Weight	5.06 kgs

### ► Autoclavable Plastic Tray

> It can be filled with different kinds of medical instruments, against contamination.

• Item	APT01
• Specification	336×240×23mm
• Packing	40 pcs/ctn
• Carton Size	370×270×245mm
• Weight	10 kgs

### ► Disposable Plastic Tray

• Item	DPT04
• Specification	284×186×17mm
• Packing	400 pcs/ctn
• Carton Size	400×305×140mm
• Weight	5.1 kgs

### ► Autoclavable Instrument Kit

• Item	AK01
• Packing	60 pcs/ctn
• Carton Size	520×410×190mm
• Weight	5.9-8 kgs

### ► Dental Impression Material Syringe

• Item	25G-C25 / 27G-C25 / 30G-C25
• Opening Type	Dual-Side Openings
• Packing	100 pcs/box, 60 boxes/ctn
• Carton Size	455×345×265

### ► Curved Utility Syringe

• Item	CS01
• Capacity	12 ml
• Packing	50 pcs/bag, 25 bags/ctn
• Carton Size	500×360×430mm
• Weight	12.4 kgs

### ► X-Ray Film Holder

> Angled with both ends working to take both anterior and posterior films. Help finishing the technique photograph of correcting the angular bisector.

• Item	XH01
• Specification	126×25×11mm
• Packing	4 pcs/box, 200 boxes/ctn
• Carton Size	430×330×310mm
• Weight	16 kgs

### ► Straight Syringe

• Item	CS02
• Capacity	5 ml
• Packing	50 pcs/bag, 20 bags/ctn
• Carton Size	510×345×370mm
• Weight	8 kgs

### ► Alcohol Lamp

• Item	AL01
• Packing	1 pc/box, 60 boxes/ctn
• Carton Size	520×430×340mm
• Weight	13.9 kgs

### ► Dental Impression Material Syringe

• Item	25G-A25 / 27G-A25 / 30G-A25
• Opening Type	Side Incision
• Packing	100 pcs/box, 60 boxes/ctn
• Carton Size	455×345×265

### ► Dental X-ray Fixed Bracket

> Parallel projection enables accurate, professional imaging. Suitable for anterior/posterior teeth, bite-wing & root canal films; compatible with ordinary intraoral films and digital PSP plates.

> Intraoral locators: Color-coded for tooth positions, with dedicated metal rods for easy connection to extraoral rings; compact holder with back silicone strip secures films without damage; design fits narrow oral spaces (no mucosa compression); anterior models have bite baffles for quick positioning.

> Extraoral rings: Three slot arms, color-coded for left/right teeth, easy to operate.

> Sterilizable via high temperature and high pressure.

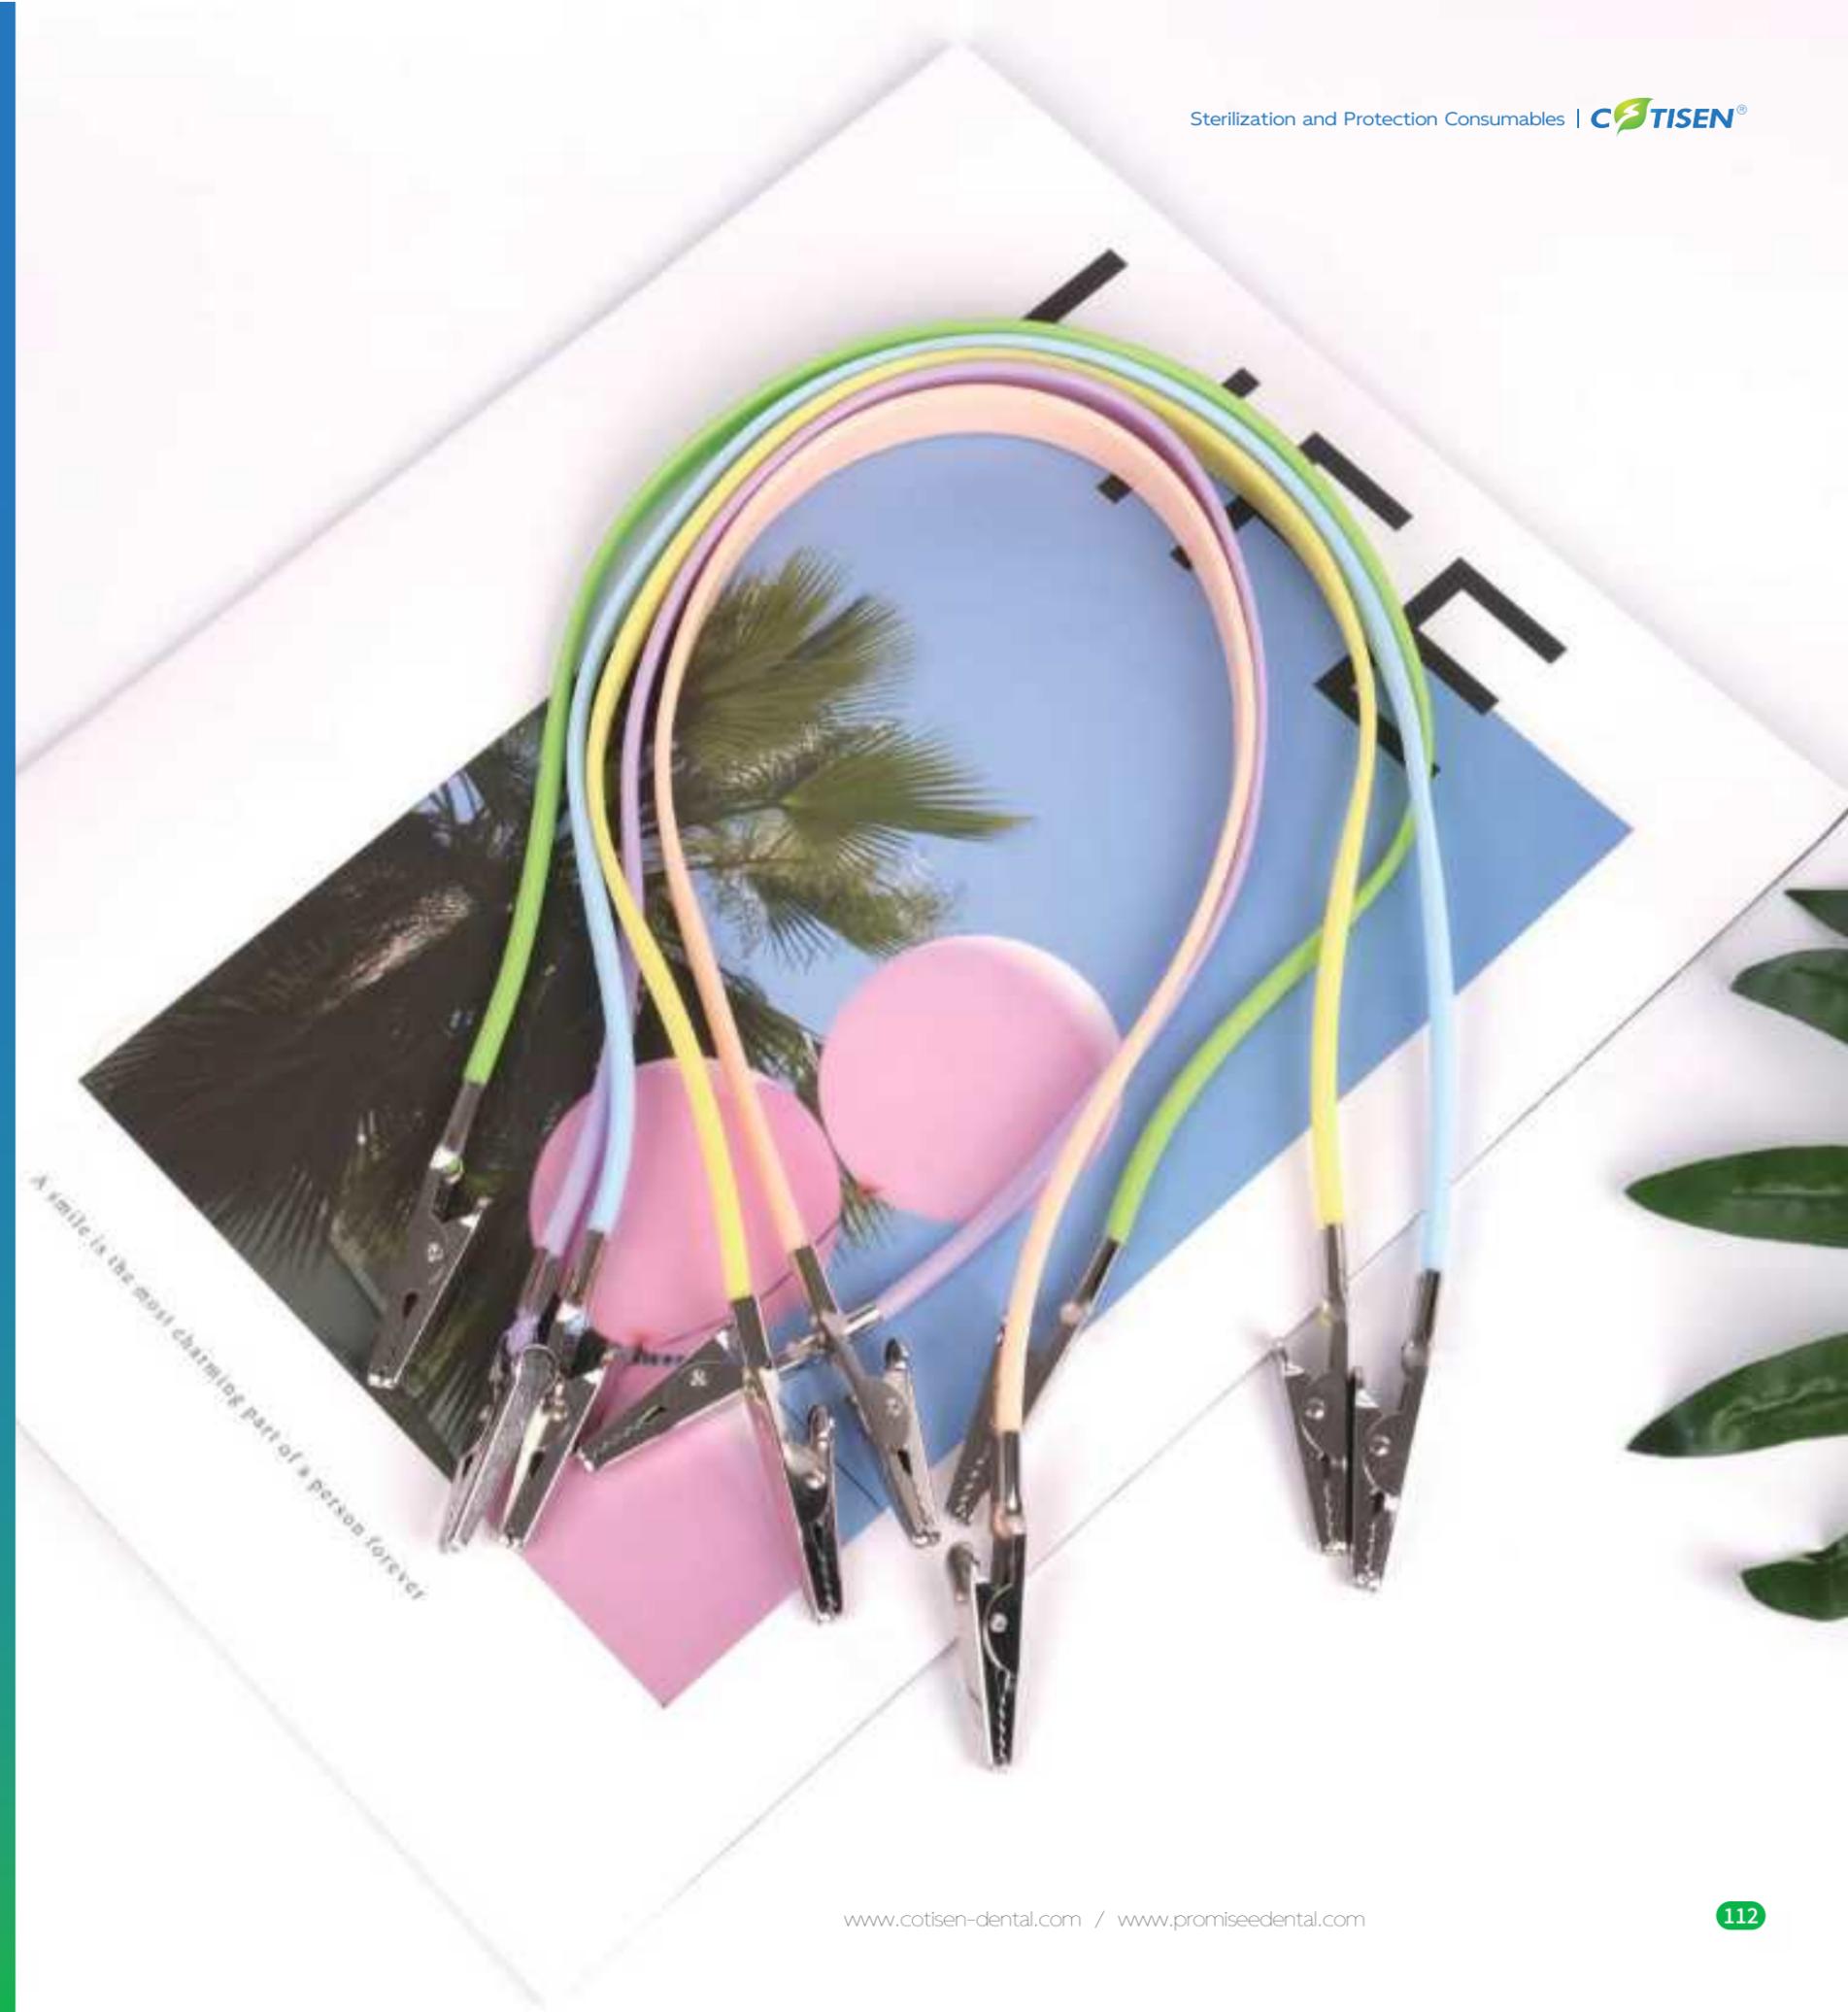

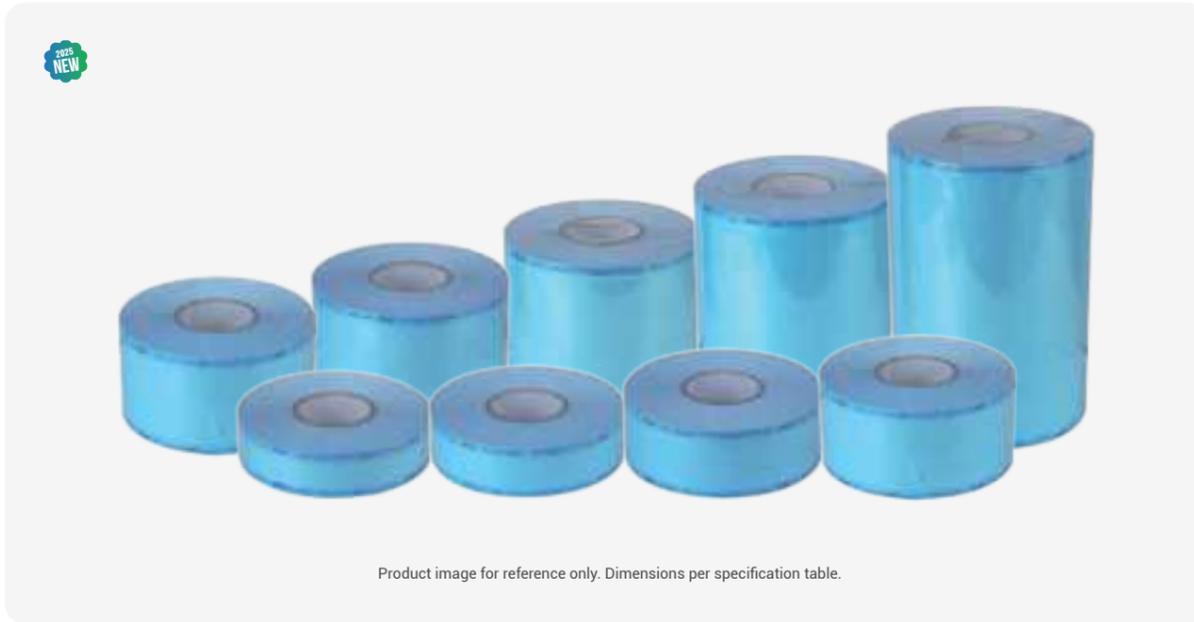

### ► Dental Impression Material Syringe

• Item	25G-B25 / 27G-B25 / 30G-B25
• Opening Type	Single-Side Opening
• Packing	100 pcs/box, 60 boxes/ctn
• Carton Size	455×345×265

## Other Medical Devices

---

### ► Compute Dispenser Gun

> Compute dispenser gun is used for conveying ceramic veneer bonding resin.  
 > It can be used repeatedly, need to do heat sterilization at 134°C before using. (Note: Please disassemble the product as below firstly, then do sterilization.)

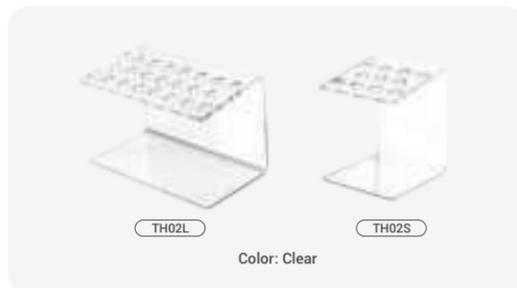

Item	CG01
Specification	150×100mm
Packing	160 pcs/ctn
Carton Size	420×320×290mm
Weight	9 kgs

### ► Compute Dispenser Gun Bullets

> The bullet material can avoid the light, and is a safe injection resin material. Bullet is disposable, and can prevent cross infection.

Item	CG02
Packing	100 pcs/bag, 100 bags/ctn
Carton Size	360×60×280mm
Weight	10.26 kgs

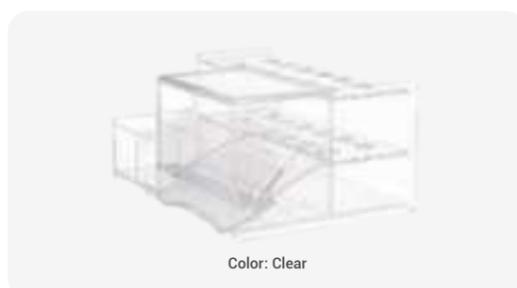

### ► Resin Syringe Holder

Item	TH02L	TH02S
Capacity	203×108×130mm	102×108×130mm
Packing	1 pc/box, 20 boxes/ctn	
Carton Size	660×450×320mm	640×320×280mm
Weight	9.4 kgs	4.6 kgs

### ► Multi-function Holder

Item	TH04MFL	TH04MFS
Capacity	192×115×141mm	112×112×141mm
Packing	1 pc/box, 20 boxes/ctn	
Carton Size	500×360×440mm	440×440×250mm
Weight	10 kgs	5.9 kgs

### ► Multi-function Holder

Item	TH04MF7
Capacity	210×160×95mm
Packing	1 pc/box, 16 boxes/ctn
Carton Size	460×40×490mm
Weight	11.3 kgs

### ► Instrument Brush

Item	QI16
Specification	102×40×34mm
Packing	1 pc/bag, 10 bags/box, 40 boxes/ctn
Carton Size	480×450×240mm
Weight	15.75 kgs

### ► Neaten Case

> For technical use neaten case, the clamping piece on the slice can be used to fix paper, color variety, convenient for distinguishment.

Item	NC01
Specification	154×138×205mm
Packing	50 sets/ctn
Carton Size	430×330×300mm
Weight	7.7 kgs

### ► Metal Crown

> Bioidentical and non-allergenic surface oxidation treatment.  
 > Crown scissors trim crown edges easily and effortlessly.  
 > Soft sides facilitate simple contouring.

Item	EYCG01
------	--------

### ► Strip Crown Forms

> There are multiple models for each tooth position. The doctor selects the appropriate size according to the patient's needs, injects the resin into the model, and fastens it to the affected tooth to save time on resin piling up.

Item	EYGC02
------	--------

### ► Dental Resin Light-Proof Box

> The dental resin light-proof box is used for mixing and light-proof storage of dental aesthetic resin, adhesive, etc. Made of food-grade material, it is safe and healthy. With a thickened design, it is pressure-resistant and drop-resistant, it has good light-proof performance, and is easy to carry and clean.

Specification	100×56×16mm
